of clever

Clever can mean academic results. Great test scores.
Top marks on an essay.

That's one way to think about clever.

But at La Trobe University it's not the only way, because we offer a personalised experience that develops every part of you.

We teach you the technical skills to land your dream job, in courses co-designed with industry. We offer Work Integrated Learning to build your professional experience. And we help you develop the skills employers value most: passion, resilience, empathy and curiosity.

La Trobe is ranked in the top 1.2 per cent of universities worldwide,¹ and our partnerships with international institutions and industries promote a truly global education for our students.

That means a winning edge in today's competitive job market. All delivered in a diverse, supportive environment at one of the world's best universities.

Don't just be clever. **Be all kinds of clever.**

'My time at La Trobe wasn't just about learning or being book smart – it also promoted a good study experience and helped me build solid foundations for my future career.'

Ersi Terolli

Master of Accounting and Financial Management graduate
Associate – Financial Advisory, Deloitte Albania & Kosovo

Ten reasons why choosing La Trobe is a smart move

When you choose La Trobe, you can feel confident you've made the right decision. You'll be studying at an internationally respected university, gaining the skills to land your dream job. And while you're studying, professional placements prepare you for the competitive world of work. What's more, you'll be experiencing life in Australia, making friends in vibrant, multicultural cities and seeing the natural wonders we're famous for. Sound good? Here are ten great reasons to choose La Trobe.

We're one of the world's top universities

Our passionate academics are widely respected for their teaching innovation and research into the global issues that matter. That's why we're ranked in the top 1.2 per cent of 28 000 universities around the world¹ and have been ranked in the world's top 400 universities by all three major independent ranking agencies.² We're very proud of our reputation for academic excellence.

We've also received a five-star rating in the QS Stars rating system for our performance in vital areas like teaching, graduate employability, facilities and inclusiveness.³

Become highly employable

Across the globe, jobs are changing as technology advances. This changing world of work creates exciting opportunities for graduates. A La Trobe degree prepares you for jobs now and into the future. And then there's our Career Ready program, where you'll get the skills employers are looking for: resilience, passion, empathy and curiosity. It's an approach that works. Our graduates are highly sought after, with 87.8 per cent securing work within four months.⁴ This places us second among Victorian universities.

To find out more, see page 10.

Strong support and services for students

Moving overseas can be intimidating at first. Setting up a bank account, finding a place to live, adjusting to a new culture. At La Trobe, you'll get all the help you need to adjust to life in Australia and get the most out of your studies. Our dedicated International Student Services team support you every step of the way with any academic, social, financial and cultural concerns you might have. Before you know it, you'll feel at home.

Our Regional Reward

Our regional campuses are uniquely Australian. You'll enjoy 'the best of both worlds': living in a connected community with everything you need, while close to forests, mountains and impressive cultural and historical sites. Better yet, if you study a Bachelor's degree at any of our Victorian regional campuses, you'll be entitled to the Regional Reward. This provides opportunities for Work Integrated Learning as part of your degree and means you may be eligible for funding for international study.

Learn more: latrobe.edu.au/int-regional

There's more than one path to La Trobe

We don't want anything standing in the way of your goals. If you haven't met the academic or English requirements for your chosen degree, there are international pathway programs offered through our on-campus provider, La Trobe College Australia. Study a course with La Trobe College Australia in year one and transition to the first or second year of your La Trobe University degree in year two.

To find out more, see page 118.

Our range of scholarships

We want to attract bright and ambitious students – much like yourself – from all over the world and support them to reach their full potential. That's why a range of scholarships are available for international students. There may be a Bachelor's, Master's or PhD scholarship that's right for you.

To find out more, see page 116.

Our Accelerator Program for budding entrepreneurs

Have an exciting idea for a start-up? The La Trobe Accelerator Program can help you make it a reality. Successful applicants receive up to A\$20 000 funding (equity-free) to fast-track business ideas and pursue a lean start-up business model. Create a market strategy, connect with business leaders and community decision-makers, and be mentored by accomplished professionals.

Learn more: latrobe.edu.au/accelerator

Choose from more than 160 degrees

Broaden your knowledge, skills and career outcomes with our wide range of courses. We're all about flexibility, so many of our degrees include specialist subjects and electives. And we've collaborated with industry to design our courses so students learn the skills employers are looking for.

Study in a diverse, friendly and safe environment

You'll find a safe and welcoming culture at La Trobe. We have on-campus services including chaplaincy, personal support and counselling. We offer Muslim prayer rooms and support for people with disabilities. And we're home to the Ngarn-gi Bagora Indigenous Centre, a learning space for Indigenous students.

Choose from more than 90 clubs and societies

It's true. You can choose from more than 90 student-run clubs and societies at La Trobe. Join as many as you like and meet incredible people with diverse interests. It could even help your career. Many of our course-related societies hold careers nights and professional networking events.

1. Times Higher Education World University Rankings 2019; Webometrics Ranking Web of Universities 2019
2. Ranked 317 in the Academic Ranking of World Universities 2018; ranked 400 in the 2020 QS World University Rankings; ranked 341 in the Times Higher Education World University Rankings 2019.
3. QS Stars University Rating 2019
4. 2018 undergraduate cohort. Graduate Outcomes Survey (GOS) 2018

The **changing** **world** of work

The way we work is changing. Quickly. By 2030, around 60 per cent of jobs are predicted to be impacted by automation.¹ At the same time, the workplace is being transformed by globalisation, an agile economy and the healthcare needs of an aging population. This disruption is also creating exciting opportunities, with millions of new jobs emerging that require a very human kind of intelligence.

If you're thinking about further study, you've picked the right time. You'll be well-placed to prepare for this changing world of work.

New jobs need a human kind of intelligence, and that's what we teach at La Trobe.

The possibilities are exciting, and new careers have already emerged: medical nanotechnologists. Virtual reality engineers. Drone pilots. Specialists in AI bias. By 2030, who knows what new careers will be available?

Careers that thrive

It's an exciting time to be working, with technology opening new worlds of possibilities. But what do these possibilities actually look like? Imagine a nurse who needs to deliver medical supplies to patients. An automated delivery cart could do just that.

Australian Futures Project co-founder and La Trobe alumna, Dr Fiona McKenzie, thinks this is a good thing.

'This can create the opportunity for a nurse to spend more time sitting with their patient, measuring blood pressure and providing better care.'

And just imagine the possibilities for working remotely. We've already seen a rise in freelancers and 'digital nomads'.

With the right skills, you could find yourself working for global companies from just about any location.

'There's a huge cohort that will be highly skilled, in demand and able to shape their future,' says Dr McKenzie, 'and they'll flourish in this environment.'

The human factor

So, what are the right skills? The jobs of the future need a human kind of intelligence. The kind that's empathetic, flexible and creative. That can adapt to an ever-changing job market and find solutions to the most complex of challenges.

60%

OF JOBS COULD BE
SIGNIFICANTLY AFFECTED
BY AUTOMATION BY 2030¹

At La Trobe, you'll develop these skills from the first day of your degree, with passionate mentors and a focus on more than just the technical. You'll graduate with the kind of skills that make you stand out: resilience, passion, curiosity and empathy. You'll be highly appealing to employers and ready for any changes.

In the future, jobs that need creative thinking, emotional intelligence and face-to-face interactions will continue to thrive. And with a degree from La Trobe, so will you.

Curious about your future-proof career options? To learn more, visit: latrobe.edu.au/int-options

Forward-thinking courses

Every one of our courses is designed to prepare you for the future of work, and we're constantly creating new ones to make sure we're at the forefront of research and industry advances.

In fact, some of our newest courses are specifically focused on the possibilities and challenges that technology creates. You could become a cybersecurity expert and protect millions of people from cyber-crime. Or maybe you'll use your knowledge of data to turn a start-up into a major business player.

Interested in finding out more?

Take a look at some of our newest courses.

- **Bachelor of Business Analytics** (see page 46)
- **Bachelor of Cybersecurity** (see page 89)
- **Bachelor of Cybersecurity/ Bachelor of Psychological Science** (see page 73)
- **Bachelor of Digital Business** (see page 50).
- **Master of Digital Marketing Communications** (see page 54).
- **Master of Cybersecurity** (see page 93).

- **Master of Law and Entrepreneurship** (see page 102).

Career Ready Advantage: prepare for the future of work

Want to stand out from the crowd? Build your networks and experience with our Career Ready Advantage program. It's been designed in partnership with industry and helps you graduate with the skills employers are looking for.

To find out more, just turn the page.

Get the Career Ready Advantage

As you're no doubt aware, it's a competitive job market out there. To stand out, you need the practical skills employers are looking for. La Trobe's Career Ready Advantage is designed to do just that. Developed with industry partners such as PwC, Optus and the Commonwealth Bank, you'll graduate with experience, confidence and a career portfolio that's sure to impress.

Plenty of support

As you prepare for your future career, we'll be there every step of the way with:

- **Support finding work** through our on-campus recruitment service, with hundreds of casual and graduate opportunities advertised every year.
- **Industry placements** with our wide network of industry partners.
- **Opportunities to connect with potential employers** through networking events, showcases and industry panels.
- **Free LinkedIn Learning** with more than 13 000 online courses to choose from.
- **Industry mentoring** with our high-profile alumni and partners.
- **Career advice** from our friendly Career Ready experts.
- **Lifetime career support** with ongoing access to online resources, workshops and networking.

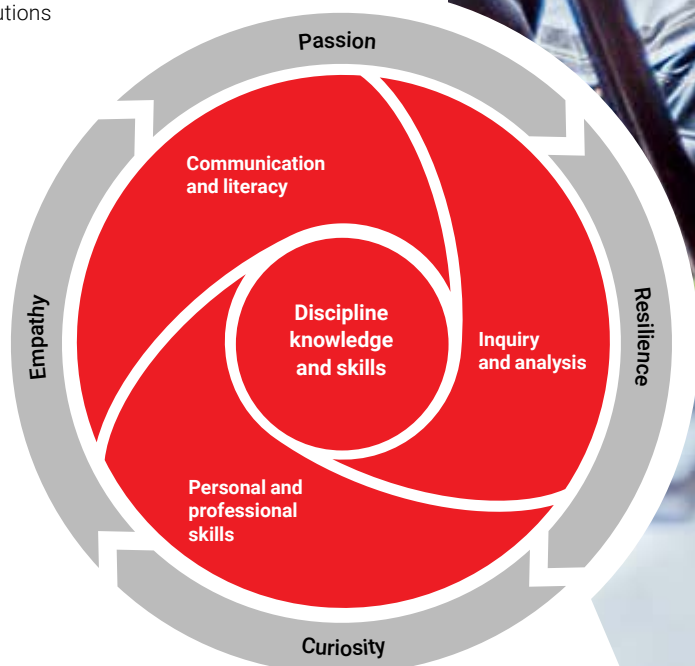

Career Ready Advantage Award

Be rewarded as you develop industry-relevant skills during your degree and outside the classroom. Work towards a Silver, Gold or Platinum award and unlock opportunities to connect with industry and develop your leadership skills.

Develop the skills employers want

Career Ready Advantage builds on the technical skills learned in your course. It helps you develop the attributes employers are looking for: passion, empathy, curiosity and resilience. You'll also learn:

- **Communication and literacy.** Develop personal, written and digital communication skills to confidently engage, build relationships and work effectively with diverse groups of people.
- **Personal and professional skills.** Learn how to manage yourself and others in the workplace with integrity, adaptability and emotional intelligence.
- **Inquiry and analysis.** Build your critical thinking and research skills to interpret data and create innovative solutions for complex problems.

Build your Career Ready Advantage

To get started, download the MyLaTrobe app or visit: latrobe.edu.au/int-advantage

La Trobe Student Excellence Academy

Are you a community leader? Perhaps you're a creative artist? A dedicated sportsperson, possibly? At La Trobe, we celebrate all kinds of clever. That's why we created the La Trobe Student Excellence Academy – the first of its kind in Australia – to recognise and support our students' outstanding achievements in community, creativity, entrepreneurship, sports and study.

The La Trobe Student Excellence Academy recognises the great things you've been doing both in and outside of class, such as your achievements in art, sport or music. Maybe you've been contributing to your local community or working on ideas that could make a difference on a global scale. Perhaps you've excelled in your studies.

Whatever you're excellent at, we'll recognise and support your hard work and commitment. Because we believe clever is about more than just book smarts. It's about passion, courage and resilience.

As a member of our Excellence program, you'll meet high-achieving peers who are as passionate and dedicated as you.

Together, you'll have access to exclusive events and opportunities while you study. You'll be challenged, inspired and supported as you build on your strengths and develop your leadership skills.

Life-changing opportunities

As a member of the La Trobe Student Excellence Academy, you'll have access to exclusive and exciting opportunities.

- **Priority access to industry mentoring and work placements.** You could be mentored by the CEO of a major company or gain an internship with a leading sports club.
- **Insights from community and industry leaders.** Get insider tips from high-profile leaders at our Leadership Insights Seminar Series.
- **Networking and educational events.** Receive invitations to special events throughout the year, and get priority invitations to our La Trobe public lectures with past guests including former Foreign Minister Julie Bishop, high-profile media presenter Waleed Aly and CEO of World Vision Australia Tim Costello AO.
- **Lunch with the Vice-Chancellor.** Take a seat at the table with the Vice-Chancellor to find out what it takes to succeed from La Trobe's most senior leader.

Because we believe clever is about more than just book smarts. It's about passion, courage and resilience.

- **Tailored career support.**
Develop your personal brand and learn how to launch a successful career by showcasing your outstanding talents and experiences to employers.
- **Represent La Trobe at national and international events.**
Be inspired and expand your world view with once-in-a-lifetime opportunities. You could travel overseas to represent La Trobe at a United Nations conference or present on a topic close to your heart at a national summit.

How do I join?

If you're a high-achieving sportsperson, entrepreneur, community contributor, student or creative, you could be eligible to join La Trobe's Excellence program. For more information about this exciting opportunity and how to apply, visit: latrobe.edu.au/int-excellence

Metro campuses

Want to study in a vibrant, multicultural city, regularly topping the list of the world’s most liveable cities?¹ Feel safe and supported in one of the most diverse international student communities in the world? Currently ranked in the top three student cities,² Melbourne is a popular destination for people from around the globe.

There’s always something to see or do. In your free time, you could catch a tram into town and sip a latte at a cosy boutique café, spending the morning exploring the city’s cobbled laneways. Afterwards, you might want to spend your afternoon at one of the many galleries or modern shopping precincts.

If your passion is music, spend the night at a theatre show or check out a live band playing at a lively downstairs venue. And if you love sport, you’re in luck: Melbourne is the sporting capital of Australia.

In Melbourne, career and culture converge. So, while you study, you’ll have endless opportunities for work and play. And along the way you’ll meet people from all around the world, build professional contacts and create friendships for life.

Melbourne Campus

La Trobe’s Melbourne Campus combines parkland beauty with a vibrant campus culture filled with cafés, shops and a multi-level library. It’s also one of Australia’s largest university campuses. You’ll have access to state-of-the-art facilities, including our brand-new tech and business labs, the La Trobe Institute for Molecular Science and our very own Wildlife Sanctuary.

You’ll also have help to achieve your academic best. We provide dedicated study rooms like the Women’s Lounge, the Law Common Room, and the MASO (Mature Age Student Organisation) Lounge. And we host many cultural and academic events on campus to make you feel at home.

Regional campuses

Enjoy study with Australia’s unique nature and culture at your doorstep. At our regional campuses, you’ll get all the benefits of studying at La Trobe and a wide range of services and entertainment options. Your commute is easy, living costs are often lower and our local partnerships make you part of the community.

Bendigo is a fast-growing, vibrant hub in regional Victoria. The centre of Victoria’s 1850s goldrush, Bendigo has a rich multicultural history. It’s now a modern city with a thriving food and arts scene which remains surrounded by native bushland.

Albury-Wodonga is Australia’s largest inland regional centre with twin cities on the Murray River. A great place to live and study, Albury-Wodonga has many employment, sporting, leisure, cultural and entertainment opportunities.

Mildura is the major centre in north western Victoria and a wonderful place to live, study, work and play. Also on the Murray, Mildura is a gateway to breathtaking natural attractions and is known for its Mediterranean-like climate, lower cost of living and arts community.

Shepparton is a multicultural regional centre at the junction of the Goulburn and Broken Rivers with a proud history of welcoming migrants and refugees. A major agricultural region, Shepparton is affordable, relaxed and has a great sporting culture.

Bendigo Campus

Get the best of the city and the country at our Bendigo Campus. You’ll join more than 5 000 students at La Trobe’s second-biggest campus, and you’ll be studying at the region’s largest provider of higher education. You can take your pick from more than 50 degrees, and with the CBD just nearby, it’s the perfect place to live and learn. It’s a great time to start, as we’ve just given the campus a A\$50 million upgrade, so you’ll benefit from world-class learning facilities as you prepare for your future career.

5 000+ students

International Student Services

It can be a big step to move overseas. That's why when you choose La Trobe, you'll have our team of international professionals there for you every step of the way. With our help, you'll feel at home in Australia and get the most out of your studies.

Welcoming you to La Trobe

Pre-departure

Before you even leave home, our International Student Services (ISS) team helps you prepare for your life in Australia. Take a look at our Acceptance and Pre-departure Guide and join our live webinars for practical advice on how to adjust as you move overseas.

latrobe.edu.au/int-leaving

Airport reception

You'll have one less worry when you arrive in Australia thanks to our free airport pick-up for all new international students. Book this service by emailing internationalarrival@latrobe.edu.au.

Check in to uni

Let us know when you arrive so we can welcome you to La Trobe. Once you're on campus, activate your student account at our international student check-in desk. Find out where to check in and what you need to bring along:

latrobe.edu.au/int-arrival

Enrolment

Curious about what subjects to choose or how to create your personal timetable? Our course advisers can help you build a study experience that reflects your passions and prepares you for jobs now and into the future.

latrobe.edu.au/int-arrival

University Orientation

We want you to get the best start to your life at La Trobe, so you need to attend Orientation at the start of semester. You'll make new friends, learn important information about campus life and set yourself up for the rest of your time here.

latrobe.edu.au/int-orientation

Supporting you through to graduation

Learning support

As you work hard to succeed in your studies, we're here to help you reach your full potential. Our study and support programs include:

- Peer Learning Advisers (PLAs)
- workshops and seminars
- academic progress outreach
- advice, support and referrals to campus services.

latrobe.edu.au/int-achieve

One-on-one support

We want to make sure you can manage any issues that you face while you're living in Australia. For help with any academic, financial, personal or visa issues you may have, book a one-on-one appointment with the supportive and professional staff at your local International Office.

Connecting you to your peers

There's plenty of ways to connect with on-campus and off-campus communities while you're at La Trobe. Build friendships, establish professional networks and meet people from all around the world with our social programs:

- I-LEAD – international student leadership program
- International Volunteer Host program
- Language and Cultural Exchange (LACE) program
- Unimates program
- Weekend Break Homestay program
- Community volunteering opportunities
- Completion of Studies program.

English and academic entry requirements

You've almost reached the most exciting part of the guide: where you find your ideal course. To be admitted into your course – and make the most of your university experience – you'll need to meet the English language and academic requirements. So, before you turn the page, keep reading below.

English language requirements

English is the main language used in teaching at La Trobe, so to succeed in your studies, it's important you meet the necessary requirements.

We accept the following English language tests, except where specified:

- the IELTS (International English Language Testing System) Academic test
- the TOEFL (Test of English as a Foreign Language)
- the Pearson Test of English Academic (PTE Academic)
- the Cambridge Certificate in Advanced English (CAE)
- the Cambridge Certificate of Proficiency in English (CPE).

We may accept other evidence of English proficiency in individual cases. Please check our website for more information about English language requirements.

latrobe.edu.au/english-reqs

If you don't have the required level of English, there are still options available. You can gain entry to La Trobe by satisfactorily completing an intensive program of English language. We can help find the best English language program for you at La Trobe College Australia, our preferred pathway provider.

For more information, see page 118.

Academic entry requirements

You'll also need to meet academic entry requirements. You can find general information about these on our website.

latrobe.edu.au/academic-reqs

Specific requirements differ between degree programs.

Applying for an undergraduate course?

You'll need qualifications equivalent to an Australian Year 12 Senior Secondary Certificate. Some courses also require prior knowledge of a certain subject or subjects. For specific admission requirements, visit the below link, find your course and click on the 'entry requirements' tab.

latrobe.edu.au/int-courses

Applying for a postgraduate course?

At a minimum, you'll need to have:

- an Australian Bachelor's degree; or
- a combination of qualifications and professional experience, which is considered suitable preparation for entry to the proposed course of study; or
- an approved international equivalent qualification.

For specific admission requirements, visit the below link, find your course and click on the 'entry requirements' tab.

latrobe.edu.au/int-courses

Minimum English language requirements¹

Fees and living costs

We want you to take a moment now for some smart money management. Understand the costs involved in studying overseas and be ready for whatever your future holds.

Fees

These are the costs that make your study possible. It's important to understand that apart from tuition fees, there's also other costs involved with studying overseas.

Tuition fees

Tuition costs are different for every course and are based on your semester study load. The fees quoted in this guide are indicative annual fees based on 120 credit points, unless otherwise noted.

Tuition fees are subject to change each year and take effect on 1 January of the following year. All payment details can be found in your Offer Acceptance Form, which includes instructions on making a payment from an overseas bank.

latrobe.edu.au/tuition-fees

Overseas Student Health Cover

International students studying in Australia are required by law to obtain Overseas Student Health Cover (OSHC). OSHC provides you with a level of health insurance cover based on the Australian Medicare system.

You can organise your OSHC through an institution of your choice or buy it through us. OSHC covers you from the day you arrive in Australia.

latrobe.edu.au/int-oshc

Other course-related costs

You might need to cover some costs for needs that are specific to your course, like specialised equipment or field trips. Check this online on your preferred course's page under 'Additional costs'.

latrobe.edu.au/int-courses

Living costs

You've considered the basics of studying overseas. Now it's time to think about the costs of living once you're here. The guide at the bottom of this page provides average estimates of the costs involved in living and studying in Australia, so you can start coming up with a practical budget.

Bringing your family?

The Department of Home Affairs (DoHA) advises you allow at least A\$7 100 per year for your spouse and A\$3 040 per year for your first child. These amounts exclude tuition fees.

Living costs (A\$), including off-campus accommodation

	MEL	BEN	A-W	MIL	SHP	SYD
Establishment costs (once-off) Average total cost, including bond/rent in advance, utilities connections and household items)	1 315	1 260	1 230	1 230	1 260	1 610
Books and stationery (once-off)	683	683	683	683	683	683
Weekly expenses Including rent, food, household items, utilities, transport and entertainment.	547	522	406	406	406	620

Please note: Annual living costs will vary according to your lifestyle. Accommodation prices are based on the cheapest options available for off-campus accommodation in Victoria and homestay accommodation in Sydney. Estimates are calculated for a single person, indicative only, and listed in Australian dollars (A\$).

For a more detailed list, please see: studyinaustralia.gov.au/english/live-in-australia/living-costs

Don't forget about your student visa!

It's your responsibility to obtain and maintain a valid passport and student visa to enter Australia for study purposes, and this includes visa costs. If we make you a full-time study offer and you accept it, you'll be issued with a confirmation of enrolment (CoE) form. Use the CoE to apply for a student visa through the Department of Home Affairs website.

Find your pathway to university

We offer international pathway options, including Postgraduate Enabling Programs, through our on-campus provider La Trobe College Australia. With English language and pathway programs ranging from 10-week blocks to 12 months, La Trobe College Australia can help you gain access to La Trobe University.

Learn more on page 118

Arts, social sciences and communications

In the digital age, creativity and critical thinking are in high demand. From government to entertainment, education and commerce: employers across industries need people who can express themselves and can work with others to convey ideas, analyse opportunities and create innovative work.

For instance, you might write the next award-winning TV series or draft public policy that drives change for good. Perhaps you'll specialise in digital transformation, using insights to bring perspective to the challenges and implication of tech. With a degree from La Trobe, the opportunities are yours to seize.

Our arts and humanities subjects are ranked in the world's top one per cent¹ and our teachers are passionate, knowledgeable and experienced.

With our flexible courses and wide range of subjects, you can match your passion to your career goals. In fact, research shows² the creative, human skills you'll gain from an arts degree are crucial in today's workplace.

If you're ready to see the world differently and expand your career possibilities, then get ready to study an arts degree at La Trobe.

Why study arts, social sciences and communications at La Trobe?

- **Learn from the best** at a top-ranking university.
- **We offer subjects ranked in the world's top 100³**, and our archaeology and historical studies research is rated above world standard.⁴
- **Put theory into practice** with professional placements in Australia and overseas. Gain international experience, learn a new language or even get financial support for your placement.
- **Be job ready** in industry-standard facilities, including our live-broadcast studio, where you'll get the hands-on skills needed to stand out in your future workplace.

Career outcomes

Arts, social sciences and communications span a distinctive range of new and established careers. Here's just a taste of the many opportunities available to our graduates:

Actor
Archaeologist
Author
Communications coordinator
Community educator
Community planner
Criminologist
Diplomat
Environmental sustainability adviser
Festival organiser
International aid worker
Multimedia artist
Museum curator
Online editor
Policy adviser
Political adviser
Politician
Screenwriter
Social welfare officer
Sports journalist
Translator
Video producer

Undergraduate

Bachelor of Archaeology

latrobe.edu.au/int-abarc

Unlock the secrets of the past. Gain the knowledge for ethical heritage management, archaeological fieldwork and working with traditional owner groups. Develop practical experience with professional internships or placements. Graduate ready for a career in archaeology, cultural heritage management or research, or use the transferable skills to create your own career path.

Archaeology dig site

Sometimes the best way to learn is to get your hands dirty.

Archaeology students at La Trobe can work at a unique on-campus excavation site, the Teaching Archaeological Research Discipline in Simulation (TARDIS). The TARDIS has been doctored by La Trobe staff and postgraduates who have created an artificial site with layers presenting a series of scenarios from times and places in the past.

Build the practical skills and experience you need to work in the field through this distinctive excavation experience.

Postgraduate

Graduate Certificate of Archaeology

latrobe.edu.au/int-aca

Develop or extend your knowledge and skills in archaeology and research. This course provides a pathway into the Graduate Diploma and Masters of Professional Archaeology. This course is your introduction to tertiary studies in archaeology.

Business and commerce

Uber, PayPal, Spotify, WeChat, Tap and Pay. Innovations like these have revolutionised industries across the globe. Transactions are instant, highly personalised and sharply targeted. Business and technology have become inseparable. With a degree from La Trobe, you'll know how to harness technology's potential to drive business success.

As technology continues to evolve, versatile business professionals are more in demand than ever. Adaptive and visionary people are needed to help shape the next phase of business.

At La Trobe, you'll learn the skills needed to design innovative solutions to some of the world's most challenging business problems. Importantly, you'll also develop the emotional intelligence and interpersonal skills to thrive in a diverse workplace.

We live and breathe innovation, and your study experience will reflect that. You'll develop solid technical and enterprise skills through interactive learning. Think business simulations, field visits and mentoring. You'll demonstrate your skills in work placements. Think managing the Australian Ballet in Beijing or joining the ranks at KPMG.

We know you'll love studying at La Trobe. Our Business School competes with the best in the world. And with a degree in business or commerce from La Trobe, so will you.

Education and teaching

We've all had that one teacher we'll never forget. The person who helped us understand a difficult maths concept. Nurtured our passion for writing. And always had time to help us. Inspire the next generation with the skills and experience that you'll build at La Trobe.

With a degree from La Trobe, you'll help shape the minds of the future, with practical skills taught by passionate educators. At the same time, you'll learn people skills. How to communicate. How to relate. These vital skills give you an edge as you head into the teaching jobs of the future.

Teaching isn't just books and numbers, so our courses give you plenty of options. You could end up working in early learning, primary or high schools, the outdoors or community organisations around Australia or overseas.

Whether you're starting out or honing your skills, you'll be learning from some of the best. Our highly experienced educators are your direct connection to the industry, and they'll be with you every step of the way as you learn with your peers and at school placements.

And when it's time to put it all into action? With a practical skillset and a network of potential employers, you'll graduate with a competitive edge, ready to inspire a new generation.

Why study education and teaching at La Trobe?

- **Learn from passionate academics** with Education and Training subjects ranked in the top 200 globally.¹
- **Gain valuable industry insights** with courses designed in partnership with schools and communities around Victoria.
- **Develop a global perspective** with an overseas placement.
- **Make connections and experience Australian life** through a placement with a local partner.
- **Graduate classroom ready** with a foundational first year that introduces national literacy and numeracy standards.

Health

Imagine finishing your day knowing you've made a difference to someone's life. Imagine knowing how to help someone walk again. Speak again. As a healthcare specialist, you've got the potential to do this every day.

A degree from La Trobe gives you the skills to help others now and into the future. You'll graduate with practical skills in new and emerging digital tools.

If you're wondering what a career in healthcare looks like, you'll get a three-dimensional view of the industry at La Trobe. First, there's the practical knowledge and skills you'll gain to protect and promote health in hospitals and communities. Then there's the industry insights you'll obtain from our experienced academic staff. And you'll put it all into practice in your clinical placements.

With your new-found understanding of health technology, you'll know how to use it to improve the lives of others. You'll also be at the centre of a globally recognised health research hub. Our research in medical and health sciences is rated above world standard,¹ with our nursing subjects ranked in the top 100 globally.²

By the time you graduate, you'll be ready. You'll have the essential skills and digital know-how to thrive in the modern workplace. You'll be ready to launch your career in healthcare with your degree from La Trobe.

Why study health at La Trobe?

- **Gain hands-on experience** through on-campus allied health clinics.
- **Put theory into practice at some of Victoria's best hospitals** with our professional placements.
- **Develop a global understanding** of health with Study Abroad.
- **Become job-ready beyond city limits** with La Trobe's Rural Health School.
- **Attend a university ranked in the world's top 250** for clinical, preclinical and health subjects.³
- **Prepare for the future of healthcare** with a digital-ready degree from La Trobe.

Health

On-campus clinics

Protect and promote health. Support the community around you. Improve the lives of others. Study at La Trobe and combine industry insights with a hands-on understanding of what it's like to be an allied health professional.

During your degree, you'll gain practical experience under the supervision of registered professionals at our on-campus allied health clinics. You'll be ready to launch your career in healthcare the day you graduate.

Postgraduate

Graduate Certificate in Art Therapy

latrobe.edu.au/int-hcart

Help people heal and express themselves through art. Art therapy is for the treatment and healing of developmental, emotional and psychological problems or disorders. It also functions as a wellbeing intervention for groups and communities experiencing distress. The Graduate Certificate is a stepping stone to the Master of Art Therapy.

	CRICOS		Fee (A\$)		IELTS
MEL (HCART)	098368B	Sem 1	18 700*	6 months	7.5/7.0

Entry requirements

See online for full entry requirements or refer to page 20 for general requirement information.

Graduate Diploma in Sports Analytics

latrobe.edu.au/int-hgsa

Improve your knowledge and capacity to collect, manage, analyse and present large data sets captured from sport. This course is for sport and exercise science professionals seeking formal education and qualifications in sports analytics. Graduate ready for your career in sports data and analysis.

	CRICOS		Fee (A\$)		IELTS
MEL/CTY (HGSA)	094173A	Sem 1	36 800	1 year	6.5/6.0

IT and engineering

Engineers and IT professionals design the world around us. They create environments – physical and digital – that meet the needs of today and tomorrow. That might be fighting cybercrime or designing the cities of the future. What comes next is only limited by your imagination.

With a degree from La Trobe, you'll be an adaptable technical professional, with practical skills and creative thinking. We're constantly updating our courses to keep pace with the skills required by industry: Cybersecurity. Artificial intelligence. Machine vision. Robotics.

When you study IT and engineering, you'll experience practical work placements at major companies such as Telstra, BMW and Boral.

You might collaborate on immersive projects, design a self-transforming robot or develop a climate prediction tool.

With experiences like these, you'll confidently graduate with on-the-job experience and strong professional networks.

Behind the scenes, IT skills are in huge demand. Your advanced knowledge of computers and refined creative skills will place you ahead of your peers as a highly employable innovator.

You'll be able to see the big picture with a career in engineering. Adaptability is key, so you'll graduate ready to work across traditional and emerging industries. Strong foundations, innovation and professional experience. That's what you'll get with an engineering degree at La Trobe.

Whatever your dream, join the next generation of smart engineers and IT specialists, ready to make a difference in the world's fastest-moving industries.

Why study engineering and IT at La Trobe?

- **Showcase your skills in front of industry experts** at our annual Engineering and IT Showcase.
- **Work in state-of-the-art labs** for engineering, computer science and cybersecurity with 24/7 access.
- **Learn and work** with innovative teaching and collaborative research spaces in our new Engineering and Technology Building at our Bendigo Campus.

Career outcomes

We've designed our multifaceted suite of degrees to enrich your career potential. Here are some of the jobs that could be yours:

Information technology

- Business analyst
- Cyber intelligence analyst
- Cybersecurity consultant
- Database engineer
- Digital strategy analyst
- Mobile app and games developer
- Network security engineer
- Project manager
- Risk management specialist
- Systems analyst
- Web developer

Engineering

- Civil engineer
- Engineering consultant
- Geotechnical engineer
- Industrial engineer
- Large-scale project manager

Bachelor of Business Information Systems latrobe.edu.au/int-sbbiy

Use technology to make the best possible decisions. Understand how to manage systems and find innovative solutions to information challenges. Study IT, programming, management, the development of information systems and database design. Complete an industry project and be ready to work in technology and management across a range of organisations.

ATARs shown are the lowest selection rank for offers made based on ATAR at the Melbourne or Bendigo campuses in 2018 (see online for other campuses). ATAR and international entry equivalents are indicative only and subject to change each year. Intakes are subject to change. Some courses have additional costs over and above the stated course fees, see online course information for full details. Pathway eligibility may be subject to additional requirements, please check LTCA website for further details.

IT and engineering

Undergraduate

Excellent regional facilities

Improvements in technology mean you don't need to be tied to an office. In IT and engineering, working remotely and telecommuting are becoming commonplace. People can live regionally and enjoy all the career opportunities of city living.

We give you great regional study options as well. Attend La Trobe's campuses in regional Victoria and have access to future-focused facilities like the new Engineering and Technology Building at our regional Bendigo Campus, with innovative teaching and collaborative research spaces.

Bachelor of Electrical and Electronic Engineering (Honours)

latrobe.edu.au/int-sheee

Electronic devices and electrical power supply are fundamental for 21st century society. This course will teach the design, integration and maintenance of these electronic and electrical systems. Gain practical hands-on problem solving skills through labs, projects and work placements. Industrial applications include power generation, communications, machine vision and electronics design.

	CRICOS		Fee (A\$)		IELTS
MEL (SHEEE)	0100685	Sem 1	35 000	4 years	6.0/6.0

Subject prerequisites

VCE Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL; and a study score of at least 20 in one of Maths: Mathematical Methods or Maths: Specialist Mathematics.

Academic requirements

ATAR	IB	LTCA	GCE	IND

Lab access

Are you a night owl? Do your best thinking after dark? La Trobe is ready when you are.

We offer round-the-clock access to our state-of-the-art labs for engineering, computer science and biosecurity. Be confident that you'll have access to the tech you need to turn your vision into reality no matter when inspiration strikes.

Postgraduate

Graduate Diploma in Computer Science

latrobe.edu.au/int-sgcs

Upgrade your skills in computer science and information technology. Specialise in artificial intelligence, games technology, software engineering and systems or computer communications and networking. This course forms the first year of the Master of Computer Science.

	CRICOS		Fee (A\$)		IELTS
MEL (SGCS)	002096D	Sem 1, Sem 2	39 000	1 year	6.5/6.0

Entry requirements

See online for full entry requirements or refer to page 20 for general requirement information.

Graduate Diploma in Electronic Engineering

latrobe.edu.au/int-sgee

Specialise in biomedical, communication, electronic systems or optical engineering. Expand your knowledge or keep up to date in these specialist areas. This course is also a pathway into the Master of Engineering (by research).

	CRICOS		Fee (A\$)		IELTS
MEL (SGEE)	019480A	Sem 1, Sem 2	37 200	1 year	6.5/6.0

Entry requirements

See online for full entry requirements or refer to page 20 for general requirement information.

Graduate Diploma in Information Technology

latrobe.edu.au/int-sgit

Gain a general professional qualification in information technology. If you are already proficient in computing, this course will broaden or deepen your knowledge. Core subjects provide a foundation in information systems, software development and computer networking. Graduate qualified for varied careers in IT.

	CRICOS		Fee (A\$)		IELTS
MEL (SGIT)	049582B	Sem 1	37 200	1 year	6.5/6.0

Entry requirements

See online for full entry requirements or refer to page 20 for general requirement information.

Master of Artificial Intelligence

latrobe.edu.au/int-smai

Launch a career in the future of machines. Gain advanced knowledge of interactive media, computer vision or natural language processing. Discover the technology and theories which make artificial intelligence possible. Develop hands-on experience through group industry-based learning projects. Graduates can pursue a career in healthcare, manufacturing, agriculture, the automotive industry and more.

	CRICOS		Fee (A\$)		IELTS
MEL (SMAI)	0100864	Sem 1	37 800	2 years	6.5/6.0

Entry requirements

See online for full entry requirements or refer to page 20 for general requirement information.

Master of Computer Science

latrobe.edu.au/int-smcsc

Computer scientists are in high demand. Learn programming, mobile app development, logic and data structures, web development, artificial intelligence and programming languages. Develop your understanding of software analysis, databases, computer architecture, networks and multimedia systems. Graduate ready for your career as a systems analyst, developer programmer or coder.

	CRICOS		Fee (A\$)		IELTS
MEL (SMCSC)	001728G	Sem 1, Sem 2	39 600	2 years	6.5/6.0

Entry requirements

See online for full entry requirements or refer to page 20 for general requirement information.

Master of Cybersecurity (Business Operations) latrobe.edu.au/int-smcyb

Keep pace with the information security demands of business, government, defence and law enforcement. Learn the fundamentals of cybersecurity, communication networks, crisis communication, the mindset of hackers, auditing, risk mitigation and legal and ethical frameworks. Graduate as the link between the technical and managerial aspects of cybercrime prevention.

	CRICOS		Fee (A\$)		IELTS
MEL (SMCYB)	093079G	Sem 1, Sem 2, Summer	35 600	2 years	6.5/6.0

Entry requirements
See online for full entry requirements or refer to page 20 for general requirement information.

Master of Cybersecurity (Computer Science) latrobe.edu.au/int-smcyc

Combating cybercrime demands innovation from skilled professionals. Develop skills in blockchain, network security, digital forensics and penetration testing. Study communication networks, crisis communication, the mindset and motives of hackers, auditing, risk mitigation and legal and ethical frameworks. Graduate ready to start or progress your career in the cybersecurity domain.

	CRICOS		Fee (A\$)		IELTS
MEL (SMCYC)	093078G	Sem 1, Sem 2, Summer	35 600	2 years	6.5/6.0

Law and criminology

How has technology reshaped the nature of crime? How free should speech be? Can we legislate equality? Some of the biggest debates of our times challenge our ideas of the relationship between society and the law. With a degree from La Trobe, you'll build the skills to step up and make the case for change.

The future needs forward-thinking legal professionals. Our skills-based teaching and work integrated learning will help you build the knowledge and practical skills to solve problems across the justice system.

Learn from passionate lecturers with a commitment to social justice at our Law School, rated above world standard for research.¹ Prepare to solve real-life problems for clients with our law degrees or understand how to tackle the causes of crime with our criminology degrees.

Outside the classroom, you'll hone your skills and gain professional experience in a placement. Learn to advocate for clients in our moot court or provide legal assistance at our award-winning Fast Track Clinic at the Asylum Seeker Resource Centre.

And when you graduate, you'll have a modern, global perspective on the justice system. You'll be ready to make an impact. And you'll have the skills to put your plan into action.

Why study law and criminology at La Trobe?

- **Learn interactively** in tutorials and seminars and be challenged to analyse and solve problems across the justice system.
- **Put theory into practice** with our hands-on placements in community legal centres, private law firms, government departments and NGOs.
- **Develop the right skills** like dispute resolution, statutory interpretation and advocacy through our professional focused offerings.
- **Stand out** by studying the only criminology degree in Victoria with forensic science as a core component.
- **Learn from the best** at one of Australia's leading research law schools. Our law subjects are ranked in the top 250 in the world.²

Law and criminology

New frontiers in law

From new forms of cybercrime to radical changes in how we think about our privacy, the future of technology and the future of the law are deeply connected.

La Trobe has the most technologically driven law school in Victoria. Our LawTech team is at the forefront of debates surrounding artificial technology, social media regulation and the role of big data in government decision making.

Postgraduate

Juris Doctor		latrobe.edu.au/int-lmjd			
Accelerate your law career with a Juris Doctor. Choose electives from law and technology, commercial law, cyber law, international law, and human rights law. Complete hands-on placements and graduate ready to begin your law career.					
	CRICOS		Fee (A\$)		IELTS
CTY (LMJD)	084540K	Sem 1, Sem 2	39 200	3 years	6.5/6.0

'A young university can't rely on past success for its reputation. It has to distinguish itself through good teaching and excellent research. That's why I chose La Trobe.'

Bernd Galneder
Master of Laws student
Germany

Science

Climate change. Biodiversity. Food security. Cancer research. Just a few of the critical issues facing the world today. Issues needing the work of bright scientific minds – like yours. Studying at La Trobe puts you at the centre of scientific breakthroughs and arms you with the skills to change the world for good.

Whichever course you choose, you'll learn from experienced academics in immersive learning spaces. You could study biodiversity in our wildlife sanctuary. Or learn about bacteria in our multimillion-dollar molecular science lab. You'll collaborate, investigate and discover.

You'll be learning from the best. Your teachers and mentors are all industry experts, and our research is rated well above world standard in 15 scientific fields.¹

Explore your future potential in on-site industry placements. Maybe a cadetship with the Centre for Freshwater Ecosystems or a placement with a leading hospital?

And when the time is right, armed with facts and skills, you'll get your chance to change the world. Whatever your mission, with a science degree from La Trobe, you'll graduate ready to meet the world's most important scientific challenges.

Why study Science at La Trobe?

- **Access world-leading research facilities** such as our A\$100 million La Trobe Institute for Molecular Science.
- **Work and learn in world-class facilities** in Australia's first integrated agricultural systems biology research centre, the A\$288 million Centre for AgriBioscience.
- **See biodiversity in action** as you study indigenous plants and animals at our 30-hectare outdoor laboratory, the La Trobe Wildlife Sanctuary.
- **Get a world-class education** with courses ranked in the world's top 200 for Agricultural Science Subjects² and Psychology.³
- **Receive personalised learning** with mentoring from students in higher years and alumni.

Science

Centre for AgriBioscience

A growing population and changing climate means feeding more mouths with fewer resources. The world needs radical thinkers to work on every aspect of food production and build a more sustainable future.

La Trobe's Melbourne Campus is home to Australia's first integrated agricultural systems biology research centre: the A\$288 million Centre for AgriBioscience (AgriBio). It brings together over 400 scientists, researchers and staff to collaboratively address the scientific challenges behind food production.

Postgraduate

Graduate Diploma in Biotechnology and Bioinformatics

latrobe.edu.au/int-sgbb

Understand the key elements of biotechnology and molecular biological data. Develop your analysis, critical inquiry and problem-solving skills. Gain a wide variety of practical experiences in laboratory settings, intensive short projects, industry visits and practical sessions. Begin your career in biotechnology and bioinformatics.

	CRICOS		Fee (A\$)		IELTS
MEL (SGBB)	049586J	Sem 1, Sem 2	38 200	1 year	6.5/6.0

Entry requirements

See online for full entry requirements or refer to page 20 for general requirement information.

Master of Biotechnology and Bioinformatics

latrobe.edu.au/int-smbb

Combine molecular biology and IT. Understand the key elements of biotechnology and the manipulation of molecular biological data. With a focus on hands-on learning, you'll complete a year of laboratory-based research. Graduate ready for your career in molecular biology, biochemistry, bioinformatics and biotechnology.

	CRICOS		Fee (A\$)		IELTS
MEL (SMBB)	049585K	Sem 1, Sem 2	38 200	2 years	6.5/6.0

Entry requirements

See online for full entry requirements or refer to page 20 for general requirement information.

Master of Biotechnology Management

latrobe.edu.au/int-smbm

Thrive in the rapidly developing biotechnology industry. Acquire advanced skills in biotechnology, alongside a solid foundation in business and management. Start your career in biotechnology industry leadership as you apply scientific foundations to the business and management environment.

	CRICOS		Fee (A\$)		IELTS
MEL (SMBM)	091417K	Sem 1, Sem 2	37 400	2 years	6.5/6.0

Entry requirements

Research at La Trobe

When you study at La Trobe, you're choosing to be at the centre of a globally renowned research community that's addressing the biggest challenges of our time.

You're also choosing world-class facilities and partnerships connecting science and industry. A dedicated support network preparing researchers for successful careers. And being part of a group of leading Australian and international researchers who are working together with their communities.

We're proud to be known for excellence in every aspect of our research – and by studying with us, you can connect with it all.

Find your focus

We challenge you to help make the world a better place to live. At La Trobe, we target five Research Focus Areas (RFAs) of:

- building healthy communities
- securing food, water and the environment
- sport, exercise and rehabilitation
- transforming human societies
- understanding disease.

Our degrees

We offer PhD, Professional Doctorate and Master's by Research programs depending on your goals and your educational and professional background. Which degree is right for you?

latrobe.edu.au/int-research-degrees

Supportive scholarships

We know what it's like when you're focused on your research: you don't want anything to distract you. Our scholarships for international students can help you cover tuition fees, manage your living expenses and more.

latrobe.edu.au/int-research-scholarships

'I have received some amazing opportunities and support from La Trobe. There are workshops in software tools, seminars on academic writing and publishing your research and more.'

Anne Brouwer
La Trobe PhD student
Germany

Maximising your potential

Prepare for the next step in your career with our Research Education and Development (RED) support program. We help La Trobe graduate researchers and academic staff develop:

- quality research practices
- strategies to achieve publication and source funding
- insight into career paths and industry sectors
- excellent research communication skills.

latrobe.edu.au/int-red-support

Industry and community engagement

As they say, it's not just what you know but who you know. The people you meet at La Trobe will help you build a rewarding career, no matter where life takes you.

If you want to grow your networks while you research, try an internship or mentoring program. Another way is our Industry PhD, which embeds you in an organisation where you'll use your research to solve problems and build your professional networks.

You'll learn from Australian industry leaders. You'll build a track record of delivering results. And when you're finished, you'll be amazed at the opportunities that come your way.

latrobe.edu.au/int-industry-community

How to get started

Ready to change the world?
Find out how to research at La Trobe.

latrobe.edu.au/int-apply-research

Scholarships and sponsorships

When you study at La Trobe, you're developing the skills employers are looking for. Think of it as an investment in your future. We think it's an investment everyone deserves, and that's why we offer a range of scholarships to help cover your costs.

Undergraduate and postgraduate coursework scholarships

Have an excellent academic record? La Trobe College Excellence Scholarships are awarded to high achieving international students and grant between 15 to 25 per cent off tuition fees.

Explore the possibilities of our regional campuses and their unique links to surrounding communities. Our undergraduate and postgraduate regional campus scholarships offer up to A\$5 000 worth of tuition fees for international students studying at our regional campuses.

latrobe.edu.au/int-scholarships

Research scholarships

We offer scholarships to support our research students, so they can focus on carrying on our innovative work.

La Trobe University Postgraduate Research Scholarships (LTUPRS) awards high achieving students undertaking a research degree with a living allowance stipend for up to two years (Master's) or for up to three and a half years (Doctoral programs).

La Trobe University Full Fee Research Scholarships (LTUFFRS) are also awarded to high-achieving students undertaking a research degree. This scholarship covers two years of tuition fees (Master's) or four years of tuition fees (PhD).

The David Myers Research Scholarship is awarded to the highest University-ranked graduate research scholarship applicants in each College, regardless of discipline or nationality. It provides a significant contribution towards living costs, a research support grant and research allowance.

Specialist research scholarships are awarded to La Trobe students undertaking key research projects.

latrobe.edu.au/int-research-scholarships

External scholarships and sponsorships

On top of those offered by La Trobe, you can also take advantage of external opportunities.

The Australia Awards Scheme includes prestigious scholarships granted to high-achieving full-time students from the Asia-Pacific region. The scholarship covers full tuition fees, basic health insurance, a single return airfare to Australia and establishment and living allowances.

International sponsored students may also receive financial assistance from a foreign government, organisation or company to study at La Trobe.

latrobe.edu.au/external-scholarships

Other funding opportunities

Need help securing a loan to cover the cost of your studies? We help international students from the following countries to apply for loans:

US – La Trobe is certified by the US Department of Education to administer the William D. Ford Direct Loan Program (US Financial Aid). Get assistance and further information: usfinancialaid@latrobe.edu.au

latrobe.edu.au/financial-aid

Norway – get assistance in applying for loans with Lanekassen: foreignloans@latrobe.edu.au

Sweden – get assistance and further information: foreignloans@latrobe.edu.au

Canada – get assistance when applying for loans with StudentAidBC, the Ontario Student Assistance Program (OSAP) and Alberta Student Aid: foreignloans@latrobe.edu.au

Denmark – get assistance and further information: foreignloans@latrobe.edu.au

La Trobe College Australia: your pathway to university

Found your ideal course, but don't quite meet the academic or English requirements? That's okay. At La Trobe University, there's more than one way to achieve your goals.

We offer international pathway programs through our on-campus provider, La Trobe College Australia. Conveniently based at our Melbourne and Sydney campuses, you'll be perfectly placed to transition to university and the Australian way of life.

With English language and pathway programs ranging from 10-week blocks to 12 months, La Trobe College Australia is helping thousands of international students like you gain access to La Trobe University.

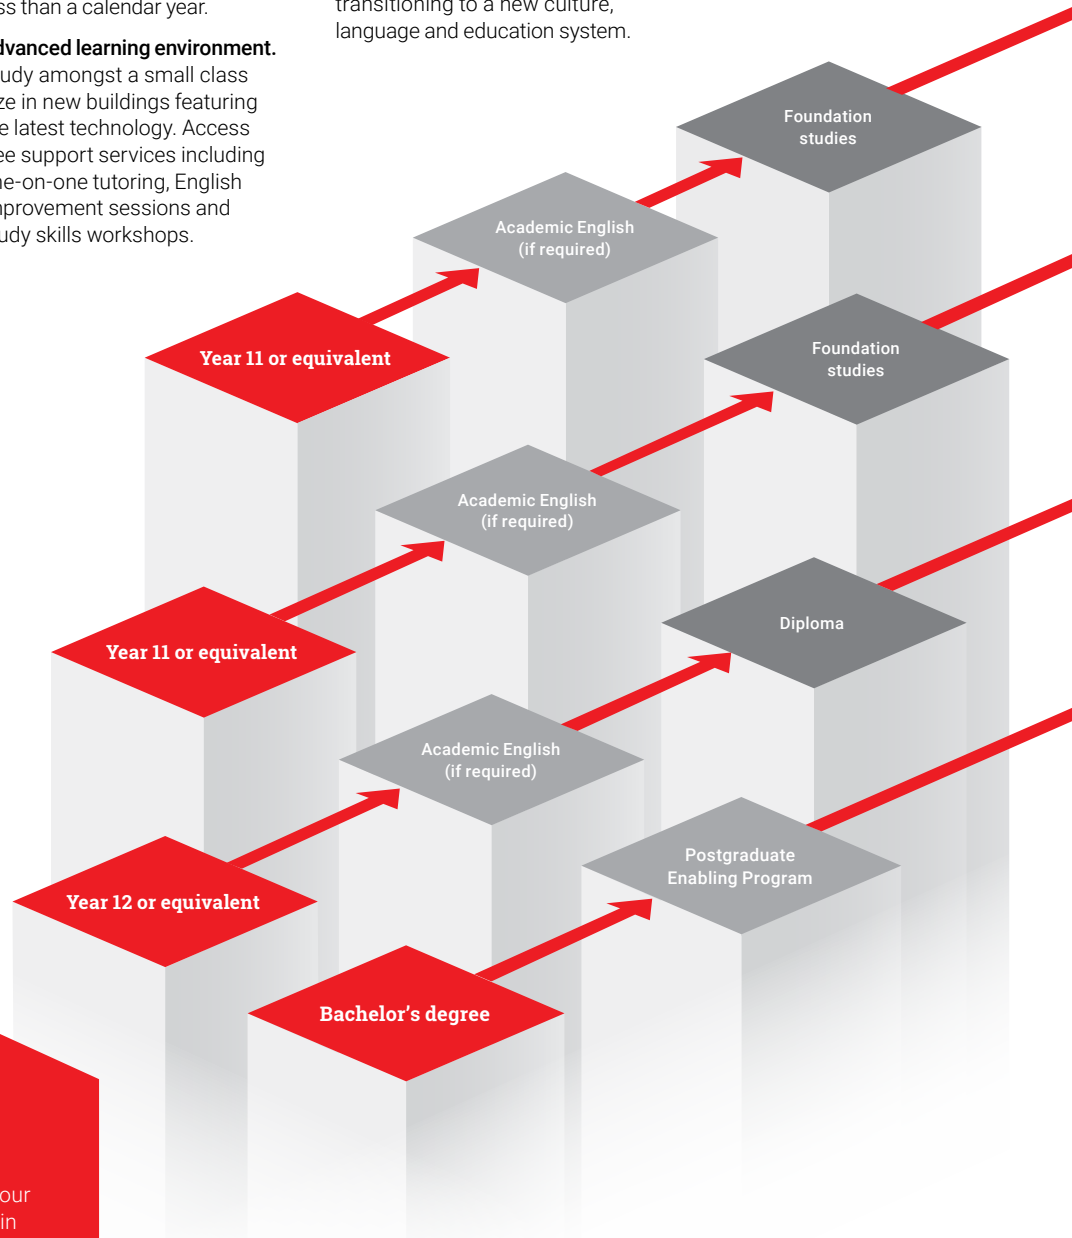

Why choose La Trobe College Australia?

- 1. Guaranteed entry into second year.** Complete a diploma and go straight to second year of your degree, subject to minimum grade requirements.
- 2. Fast-track your studies.** Complete a 12-month diploma in just eight months. This means you transition into the second year of your La Trobe degree in less than a calendar year.
- 3. Advanced learning environment.** Study amongst a small class size in new buildings featuring the latest technology. Access free support services including one-on-one tutoring, English improvement sessions and study skills workshops.

- 4. The university experience from day one.** Study on campus at La Trobe University in Melbourne or Sydney. You'll immediately feel like a university student, with access to all the best facilities, social activities and clubs.
- 5. Expert teachers.** Get ready for your university studies with highly qualified lecturers who specialise in university preparation. They understand the unique needs of international students transitioning to a new culture, language and education system.

Where are you starting your journey?

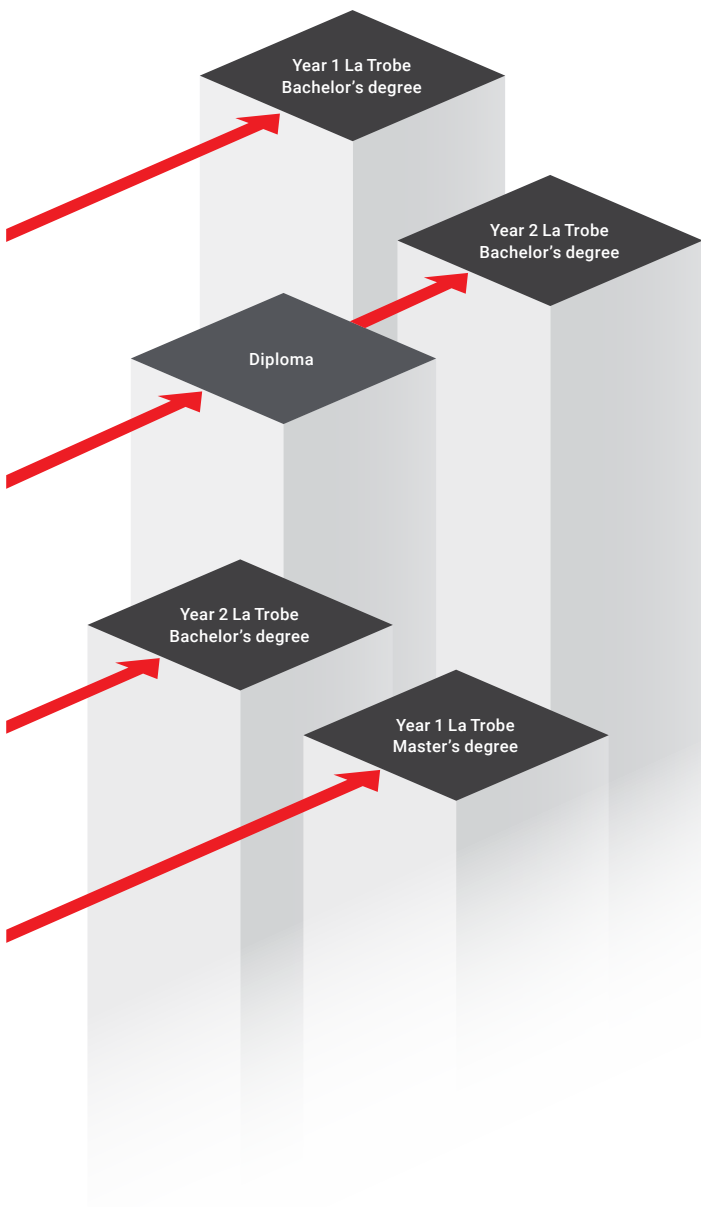

Take a look at the diagram below to see what pathways you can take to study at La Trobe.

English for Further Studies

CRICOS: 079164E, 077031A, 077032M, 077033K

Don't meet the language requirements of your course? You can study English on campus in Sydney or Melbourne, then progress directly to your pathway course or La Trobe degree.

Pathway programs

Foundation Studies

These programs help you transition from international studies to an Australian degree, preparing you to enter the first year of a range of university degrees. Foundation Studies is equivalent to an Australian secondary school qualification.

Course	Campus location	CRICOS	Course duration
Business, Information Technology and Humanities	MEL, SYD	085026J	8 months
Engineering and Computer Science	MEL	085026J	8 months
Health and Life Sciences	MEL	085026J	8 months

Diploma programs

Equivalent to the first year of your chosen Bachelor's degree, the Diploma Programs are designed to closely match your chosen degree. Once you've completed the Diploma and met the progression requirements of your course, you can transition into the second year of your degree.

Course	Campus location	CRICOS	Course duration
Diploma of Bioscience	MEL	077119D	8 or 12 months
Diploma of Business	MEL, SYD	076108D	8 or 12 months
Diploma of Engineering	MEL	088419A	8 or 12 months
Diploma of Health Sciences	MEL	077120M	8 or 12 months
Diploma of Information Technology	MEL, SYD	076109C	8 or 12 months
Diploma of Media and Communication	MEL	077121K	12 months
Diploma of Psychology	MEL	099061B	8 or 12 months

Postgraduate Enabling Program (PEP)

Looking at studying a Master's degree, but don't meet the academic or English requirements for direct entry? PEP is the option for you – providing a pathway into a range of La Trobe University Master's degrees. You'll gain the knowledge and skills required for your Master's degree, as well as the communication skills to stand out in the workforce.

Course	Campus location	CRICOS	Course duration
Business	MEL, SYD	088963K	3 months
Information Technology	MEL	088963K	3 months

Campus location Course duration **MEL** Melbourne **CTY** City **SYD** Sydney

Please note: Students successfully completing a Foundation Studies or Diploma program at La Trobe College Australia will receive a qualification from Navitas Bundoora Pty Ltd (CRICOS 03312D), part of the global education provider Navitas Limited.

The Postgraduate Enabling Program is a La Trobe University course, delivered on behalf of the University by La Trobe College Australia. English programs in Melbourne are delivered by Navitas Bundoora Pty Ltd (CRICOS 03312D) and in Sydney by Navitas English Ltd (CRICOS 00289M).

Five reasons to live on campus

Deciding which course and where you want to study is a big step, but have you thought about accommodation? You'll need to find somewhere that suits your lifestyle, is convenient for travel and study, and matches your budget. For many international students, campus accommodation is the ideal choice. Here are five reasons why.

Join a diverse and welcoming community

As soon as you arrive, you'll feel at home. There's a whole community of friendly students from around the globe for you to meet. From day one, there are orientation events and cultural activities for you to explore. It's a great way to make friends and be part of campus life.

Our residential colleges have common spaces where you can chat with friends, watch a movie or even challenge someone to a game of table tennis. We also have social activities throughout the year. Think wildlife tours, yoga, cooking classes, rock climbing and more.

Excellent entertainment, services and facilities

Take the worry out of setting up home in Australia by moving into fully-furnished accommodation. It's set up with everything you need: gas, electricity, internet and all the other essential services. You'll also have access to study areas, computer labs, gyms, gaming rooms, home cinemas, chill-out areas and every on-campus event you can imagine.

There are food truck days, cultural events, public lectures and so much more. Most of it's free, so you'll have fun and save money at the same time.

Affordable accommodation options that cater to your lifestyle

Whether you're looking for a quiet place to study or a vibrant, social atmosphere, we've got accommodation options to suit you at our Melbourne, Bendigo and Albury-Wodonga campuses.

For a social vibe, you might choose a residential college. Or maybe a self-contained unit is more your style. Looking to study at one of our other campuses? Check out our off-campus accommodation database. You'll find lots of affordable and convenient options available. It's just about finding the right fit for you.

Great support

We're here to help settle you in to campus life and guide you through any challenges. Need help with your studies? We've got you covered, with free academic mentoring. We also care about your health and wellbeing, so we offer a range of services such as a 24-hour student support hotline, one-on-one counselling and self-help resources.

Safe, secure and convenient

Campus accommodation is safe and secure. You'll have peace of mind, with security buses and security escorts available if you're ever travelling late at night or walking by yourself on campus after dark. Did we mention convenient?

There's no need to worry about sleeping through your alarm again, with classes only minutes away. Not to mention the money you'll save on transport. You're also perfectly placed to make the most of everything else that's on campus. Like all the amazing events and facilities.

Want to find out more? Of course you do:

Study Abroad and Incoming Exchange

There's nothing like travel to broaden your horizons – and your networks. At La Trobe, we've got welcoming student communities and deep connections with industry. We'd love to host you for a semester or two through our Study Abroad and Incoming Exchange programs.

Follow your passions to La Trobe with these flexible programs. Study with a globally renowned university and add our international reputation to your degree back home. You'll experience life in Australia, benefit from our world-class facilities and receive an official transcript confirming your results.

Subject areas

- Aboriginal Studies
- Arts, humanities and social sciences
- Business and economics
- Creative arts
- Education
- Engineering
- Health sciences
- Information technology and cybersecurity
- Languages
- Law
- Science and psychology

Pre-Orientation trip

Ease your way into Australian life with a weekend escape to the spectacular coastline along the Great Ocean Road (Twelve Apostles) or Phillip Island. Enjoy your first taste of Aussie cuisine, learn to surf and maybe even spot a koala or two.

This is a fantastic opportunity to make friends before the start of the official Orientation. You'll receive more information about these optional trips after you accept your La Trobe offer.

Study Abroad fees

Tuition fees for the Study Abroad program are based on a full-time study load of 60 credit points per semester. For the 2020 tuition fees, visit:

latrobe.edu.au/int-exchange

Incoming Exchange fees

If your home institution has an exchange agreement with us and you're nominated for an exchange placement, no tuition fees will apply. You'll still need to pay accommodation and other general fees, though. For the full list of our Incoming Exchange partners, visit:

latrobe.edu.au/int-exchange-partners

Entry requirements

We usually require a C average for entry into the Study Abroad and Exchange program (GPA 2.5). Entry to individual subjects depends on prerequisites and class limitations. If you're currently completing or have just completed your final year of secondary/high school, you'll need to meet the minimum academic entry requirements for the undergraduate degree program that best matches your Study Abroad program.

You must also provide evidence of your English language proficiency.

latrobe.edu.au/english-requirements

How to **apply**

So, you've decided to study, you've weighed up your options and you've found a course that's right for you. Now it's time to apply for that course.

Here's how to apply in six easy steps.

Authorised agents

Our authorised agents will also be able to assist you with advice and information on the application process.

Find an authorised La Trobe University agent in your country:

latrobe.edu.au/int-agents

4

Attach supporting documents

Complete your application by scanning and uploading the following documents to the Student Portal:

- copies of your academic qualifications in your language and in a certified English translation (you'll need to submit original or certified copies of academic qualifications when you accept your offer)
- evidence of your English language proficiency
- any other information specified in the entry requirements for your course
- any supplementary application forms that are required.

Note: if you want to apply for a credit transfer, you will be required to provide your course syllabus or course outlines.

5

Accept your offer

Once your application is approved, you will receive an email with your offer letter and a step-by-step guide on how to accept your offer, pay your tuition fees and provide any outstanding documents.

6

Apply for your student visa

Once you have accepted your offer you will receive a Confirmation of Enrolment (CoE). This enables you to apply for an Australian student visa.

latrobe.edu.au/student-visa

Note: you can also apply to study at La Trobe via post, fax or email. Alternatively, you can deliver your application form and documentation in person at:

La Trobe University
International Admissions
Sylvia Walton Building
Plenty Road and Kingsbury Drive
Melbourne
Victoria
Australia 3086

E intapplication@latrobe.edu.au
F +61 3 9479 3660

Key terms

There's a lot to learn about studying overseas. Here's a quick summary of some of the terms you might come across as you research studying in Australia.

Academic calendar

Most La Trobe University courses run during two 13-week semesters each year. Some courses also run during non-standard teaching periods, such as summer and winter terms. Learn more: latrobe.edu.au/calendar/academic-calendar

Assessment and grading

What you're assessed on depends on the subject you're taking. It can include things like case studies, group assignments, class presentations and exams. We use the following grading scheme:

- A: 80-100%
- B: 70-79%
- C: 60-69%
- D: 50-59%
- N: Less than 50% is a fail

Entry requirements

These include academic requirements like your high school or undergraduate results and general entry requirements like IELTS (International English Language Testing System) scores. Learn more on page 20.

Honours

Honours studies are advanced studies attached to undergraduate degrees, giving you a higher qualification. Most La Trobe undergraduate courses offer Honours. Depending on your course, this might mean an additional year of study, but some courses have it built in.

Lectures, tutorials and seminars

During lectures, your teachers will present information to your entire class. Tutorials and seminars are smaller group sessions that are sometimes led by your teacher, another academic, or another student. Tutorials and seminars are interactive and are your chance to get more information about lecture material and assignments.

Major

A sequence of related subjects covering the duration of an undergraduate course. You'll usually undertake at least one subject from your major each semester and you need to pass each subject to move to the next one in the sequence.

Orientation

The official start of the semester. This includes events and activities to help you get familiar with your campus, make new friends and get yourself set up for the year before classes start. Learn more online: latrobe.edu.au/int-orientation

Prerequisites

The subjects you must have completed at school (and/or any other qualifications you need) to be eligible for consideration in a specific course. Check prerequisites for courses online: latrobe.edu.au/int-courses

Postgraduate

The second level of university study. Usually, you can only begin postgraduate studies once you've completed an undergraduate degree. Qualifications in this level include Graduate Certificate, Graduate Diploma, Postgraduate Diploma, Master's and PhD.

Subjects – core and elective

Your course will be made up of subjects, or individual units of learning lasting a semester each. Core subjects are compulsory parts of your degree. Electives give you the chance to choose your own subjects and explore other topics as part of your course.

Tuition fees

When you study at La Trobe, you'll need to pay tuition fees. You can find information about fees and living costs in Australia on page 22. Check indicative annual fees for our courses online:

latrobe.edu.au/int-courses

Undergraduate

The first level of university study. This usually refers to a three-year single Bachelor's degree, but it also includes Honours studies, which can take an extra year. There are also double degrees that usually take at least four years full-time.

Work Integrated Learning

Our Work Integrated Learning (WIL) subjects place students in organisations where you can put theory into practice. Some courses have core WIL subjects, and we also offer a range of elective WIL subjects.

LaTrobe University acknowledges that our campuses are located on the lands of many Traditional Custodians in Victoria and New South Wales. We recognise their ongoing connection to the land and value their unique contribution to the University and wider Australian society.

LaTrobe University is committed to providing opportunities for Aboriginal and Torres Strait Islander people, both as individuals and communities, through teaching and learning, research and community partnerships across all our campuses.

The wedge-tailed eagle (*Aquila audax*) is one of the world's largest, and the Wurundjeri people – Traditional Owners of the land where our Melbourne campuses are located – know the wedge-tailed eagle as Bunjil, the creator spirit of the Kulin Nations.

There is a special synergy between Bunjil and the LaTrobe University logo of an eagle. The symbolism and significance for both LaTrobe and for Aboriginal people challenges us all to gamagoen yarrbat – to soar.
