GROUP
OF EIGHT
AUSTRALIA

Published September 2019 by the Division of Student Recruitment,
The Australian National University. CRICOS Provider Number: 00120C

No undertakings are binding on the University unless they are obtained in an official letter from the Deputy Vice-Chancellor (Academic). The University may vary the ATARs, other entrance scores and requirements, content and availability of programs and courses, and costs and charges applied to the courses outlined in this guide. The University reserves the right to change the contents of courses and not to offer all courses listed in this guide.

MESSAGE FROM THE VICE - CHANCELLOR

Welcome to ANU

It gives me great pleasure to introduce you to our undergraduate course guide for 2020.

Choosing where you will go to study after you have finished school is one of the most important decisions that you will ever make.

I made the decision to join ANU because I believe that ANU is a world leader in providing both students and staff the most incredible opportunities to transform their own lives and truly change the world.

Our university motto is “First, to learn the nature of things”. We have created an environment that allows great minds to reach their potential through excellence in teaching, providing transformative opportunities for growth and encouraging confidence to explore new ideas.

Our community consists of bright and engaged students who come from across Australia, our region and around the world, giving you the chance to meet amazing people and build lifelong friendships.

Our students are central to everything we do here at ANU. We encourage students to live right here on our beautiful parkland campus in the national capital, allowing you to fully immerse yourself in the University community.

You will have the chance to learn from some of the world’s best teachers who are at the forefront of their fields and you will become part of a lively intellectual community.

Everyone at the University stands for the highest possible standards of ethical behaviour and we support the kind of inclusive and diverse environment that leads to more original thinking and better outcomes for our community, the nation and the world.

If you want to change the world, if you want to shape the future, if you want to make a real difference, ANU will help you get there. Our graduates are amongst the most employable around the globe and our alumni include many of the world’s movers and shakers.

Long after they have graduated, our students continue to connect through our extensive Alumni Relations program, creating extensive professional and social networks around the world.

I am pleased to invite you to join us at ANU to undertake your undergraduate studies and look forward to welcoming you into our community.

Professor Brian P. Schmidt AC
Vice-Chancellor and President

SINGLE DEGREES

Want to focus your studies?

Choose from over 50 single degree programs across our seven academic colleges. Focus on a specific subject area or select a combination of subject areas to explore.

Single degrees generally take between three and four years of full-time study to complete, and allow you to focus on a structured discipline or experience a broad range of subjects.

If you have a career in mind and know what you want to study, choose a structured degree like a Bachelor of Engineering (Honours) or a Bachelor of Health Science.

If you want flexibility to study a range of subjects within a discipline, choose something like the Bachelor of Arts or Bachelor of Science.

Footnotes:

- Please refer to individual program webpages at programsandcourses.anu.edu.au.
 - Program includes another pre-requisite in addition to ATAR. See pages 18-24 (Academic Requirements tables) for full details.
 - Entry into performance course is by audition. Applicants wishing to enrol in performance courses are advised to contact the School to arrange for an audition as soon as possible. E: schoolofmusic@anu.edu.au or music.cass.anu.edu.au/students/future/apply/auditions.
 - This program is completed through ANU College. See anucollege.edu.au.
 - Joint degree offered with the National University of Singapore (NUS).
 - This program has a specific admissions process, please refer to page 16 for more information.
- Note:** Admissions requirements may vary each year and requirements for entry in 2019/2020 may be subject to change. See programsandcourses.anu.edu.au for any changes in entrance requirements. The information listed is correct at time of printing, January 2019.

FLEXIBLE DOUBLE DEGREES

Design your own Flexible Double Degree by choosing from over 750 possible degree combinations.

Satisfy your intellectual curiosity and tailor your studies to prepare for your dream career.

- > Graduate with two qualifications.
- > You'll have a clear advantage when applying for jobs.
- > It takes less time than studying two undergraduate degrees separately.
- > You'll have the same full-time workload as a student studying a single undergraduate degree.

What can you combine:

- > any two degrees within the Arts, Social Sciences, Business or Science group
- > a Bachelor of Laws with another degree within the Law group
- > a Bachelor of Engineering, Advanced Computing or Software Engineering with another degree within the Engineering and Advanced Computing group.

Jharna Chamlagai

Bhutan

Bachelor of Law/Bachelor of Science

The first-year science/law student, who left her birth country of Bhutan as a refugee, says:

"I had this feeling in the back of my mind that if I did law, I might have to give up on my love for science, so finding out about this double degree at ANU was amazing. Now I'd like to find a career where I can help people."

Her interest in science and the human body, she says, was fueled by a kidney disorder and her personal research into the condition. And her interest in law developed as a result of her parents' background.

UNDERGRADUATE RESEARCH DEGREES

Delve into your interests while developing the systematic research skills needed for problem-solving, discovery and innovation.

Undergraduate Research Degrees are challenging study programs that give you opportunities for intensive one-on-one guidance from world-leading academics, exclusive placements in research organisations, travel and teamwork.

- > You will have the same full-time workload as a student studying a single undergraduate degree.
- > You will graduate with skills that are in global demand across government, non-government and not-for-profit, business, consultancy and academic sectors.

Skills to get you ahead

The employment landscape is always changing, especially as technology becomes increasingly sophisticated and prevalent in the workplace.

Traditional jobs are disappearing or changing, while new jobs are emerging in response to contemporary needs.

By choosing to undertake an Undergraduate Research Degree you will develop timeless and highly transferable skills that work across disciplines. In particular, you will develop high-order problem-solving skills that employers are demanding the world over.

These skills will let you work in and across any industry which means that when you graduate, you will be uniquely placed to direct the course of your career.

Marika Niihori

Cairns, Australia
Bachelor of Philosophy (Honours)
(PhB) - Science

"Imagine attending a university situated at the capital of Australia, the heart of global research, and ranked number 24 in the world! To this day I have trouble believing this but I'm proud to call it my university. I study a Bachelor of Philosophy (Honours) in Science and it has been the best decision I have ever made in my life. Moving from Cairns to Canberra, and living off campus was a very daunting idea. However, through the non-residential college Griffin Hall and my small PhB cohort I have been able to make many friends which allowed me to transition smoothly into university life.

Through PhB I have already undertaken a research project in physics with leading researchers that has opened doors. My other major concern was whether I'd find the opportunities to balance out my studies with extracurricular activities. Never fear as ANU has over 180 clubs and societies! It's rather hard not to get involved! I've had the opportunity to work in the team for the annual ANU Student Research Conference. I have been elected as the President of the ANU Music Society and am a SET4ANU orientation leader. Overall my experiences at ANU have been life changing and I cannot wait to see what opportunities lie ahead in the future."

Bachelor of Advanced Computing (Research and Development) (Honours)

A unique, interdisciplinary degree that will prepare you to be a future leader in the information and communications technology revolution.

You will learn advanced computing techniques and have the opportunity to complete a unique major, while developing exceptional professional skills in areas of entrepreneurship and management.

Bachelor of Engineering (Research and Development) (Honours)

For high-achieving students interested in becoming innovators and future leaders in engineering.

This degree program combines the fundamental engineering courses with the opportunity to be immersed in research groups covering mechatronics, solar energy, materials and manufacturing.

When you graduate, you will be equipped to solve some of the world's greatest challenges.

Bachelor of Finance, Economics and Statistics (Honours)

An elite program that integrates the three disciplines so you can develop a deep understanding of these fields.

You will be guided by a mentor throughout your studies, and when you graduate you will be recognised for your exceptional aptitude for quantitative financial analysis, conceptual thinking about claims on resources using statistics, problem-solving combining economic intuition and mathematical techniques.

Bachelor of Philosophy (Honours) (PhB) / Bachelor of Science (Honours) (NUS)

The PhB(Hons)/BSc(Hons) can be taken in three majors (Chemistry, Mathematics or Physics) and is offered as a joint single degree program by the National University of Singapore (NUS), and the Colleges of Science at ANU.

This highly selective program provides a challenging course of study for students who have a strong interest in and aptitude for graduate research work.

Bachelor of Philosophy (Honours) (PhB) / Bachelor of Arts (Honours) (NUS)

Jointly offered with the National University of Singapore (NUS), the PhB is suitable for you if you are intellectually ambitious and have an interest in English, History, Political Science or Philosophy, and wish to complete a period of study in Singapore.

Bachelor of Philosophy – Asia & The Pacific

An innovative, research-focused undergraduate degree designed for intellectually curious students who want to explore their interests beyond the classroom. It's the only program of its kind where disciplinary knowledge is enriched by a deep regional understanding of Asia and the Pacific.

FLEXIBLE VERTICAL DOUBLE DEGREE

A Bachelor and a Master degree in one study program - graduate with two qualifications

ANU has pioneered the Flexible Vertical Double Degree to give you a head start with a Master degree to gain knowledge, skills and experience that can equip you to work across a broad range of roles and organisations, anywhere in the world.

Save time & money

This vertical study program gives you credit for related areas of study, so you can save time (and money) when compared with studying a Bachelor degree and a Master degree separately.

Specialise or go broad

Studying a Master degree in the same field as your Bachelor degree will give you depth of knowledge and specialist skills. Or you can take your Master degree in a different field to broaden your knowledge and develop your transferrable skills.

Freedom to explore

If you study an eligible Bachelor degree program at ANU, you can opt-in to a Flexible Vertical Double Degree program straight after you enrol, or up until you have completed 72 units of study. Maintain the required Grade Point Average, and you will transition into the Masters component of your study program at 96 units.

Studying at university opens your eyes to a wide range of disciplines - many of which you won't have encountered until you arrive. The benefits of aiming for this flexible program are that you can explore what ANU offers before settling on a discipline area. Then when you're ready, you can choose from over 300 Flexible Vertical Double Degree combinations - explore first, decide later.

Here's a handful of our Flexible Vertical Double Degree programs to get you thinking.

- > You love music and want a career in the music industry ... Bachelor of Music/Juris Doctor
- > You want to make a difference in people's lives ... Bachelor of Science/Master of Public Health
- > You're fascinated by the cultures of our regional neighbours ... Bachelor of Art History & Curatorship/Master of International Relations.

Amit Poonath

India

Bachelor of Psychology (Honours) / Juris Doctor

"My name is Amit Poonath, I finished a Bachelor of Psychology (Hons.) from the ANU and I am currently enrolled in a Juris Doctor program. I am an international student from India and this is my ANU story.

The ANU exemplifies the phrase world-class. The unique exposure to excellent learning experiences coupled with access to the world's leading minds makes ANU a global hub of knowledge. My time at the ANU has been colourful to say the least. I have had the good fortune of engaging in a range of academic and extracurricular activities over the course of my tenure. From engaging in national and international academic internships, conferences and mentoring programs; to residential leadership positions, community outreach and personal development programs, I have been able to uphold and cherish a standard that is characteristic of the ANU community.

The ANU is not just another university; I have found it to be a dedicated institution that paves way for growing minds to be nurtured. I chose ANU and in turn chose a world of opportunities."

* Program includes another prerequisite in addition to selection rank.
 See pages 24-27.

EXPLORE YOUR OPTIONS

Plan your degree

You can tailor your studies to suit your interests or careers goals through your majors, minors and specialisations.

What's a major?

A major is an area within a program that allows in-depth study in a particular field. A major usually consists of a set number of related courses. Majors at ANU require 48 units of study. Typically, each course is worth six units.

Then, what's a minor?

As the name suggests, a minor has fewer requirements to fulfil than a major, in terms of points and compulsory courses. Minors at ANU require 24 units of study – so typically four courses.

And a specialisation?

Similar to a minor, a specialisation is an area of study with its own courses that are allowed to be taken in conjunction with a specific related major.

- > For more information on majors, minors and specialisations go to programsandcourses.anu.edu.au

Degree programs

Choose from a range of innovative and flexible options and design a degree that suits you.

A single Bachelor Degree

Single degrees take between three and four years to complete and allow you to focus on a structured discipline, or experience a broad range of subjects.

Flexible Double Degrees

Get more out of university by combining two different degrees into a Flexible Double Degree and graduate with two qualifications. With over 750 possible degree combinations, you're spoilt for choice.

Undergraduate Research Degrees

Thoroughly explore your passions and interests and direct your own learning. There are two types of research degrees to choose from. You can undertake a Bachelor of Philosophy or a Research and Development degree.

Diplomas

Diplomas provide another pathway to your dream degree if you fall short of the marks you need for direct entry. Offered

by ANU College, you'll find a supportive study environment that will prepare you for entry into Bachelor-level study.

Vertical Double Degrees

Undertake an undergraduate degree and postgraduate degree in one study program and graduate with two qualifications.

- > programsandcourses.anu.edu.au

Nu Nguyen

Vietnam

Bachelor of International Security Studies

"I'm from Vietnam. I chose ANU because it's one of the top 20 universities in the world, on par with many top British and American universities. During my time in the Bachelor of International Security Studies, I've had my ups and downs, challenges and rewards. Every class's robust and detailed discussion comes with rigorous self-research on topics. Every essay is the fruit of hard work and long hours of labour.

I've taken a minor in Historical International Security because I like history subjects and I think they are essential for an international student like myself to become familiar with Western cultures and their progress of civilisation.

Without the study of history, it would be challenging to make sense of what's happening today. In the future, I hope to work at a non-government organisation like the United Nations or ASEAN. These organisations are where I can apply the most of my knowledge and findings and actively contribute to peacekeeping."

MAJORS

Some of the exciting Majors you can study include:

Business and economics

- > Accounting
- > Applied Statistics
- > Asian Capital Markets
- > Business Information Systems
- > Capital Markets
- > Corporate Sustainability
- > Economic Studies
- > Finance
- > International Business

APPLYING TO ANU

ANU welcomes close to 3,000 international students each year. If you would like to be one of them in 2020, apply early for the best chance of success.

As an international student, you can apply directly to ANU, or use one of our international agents located around the world.

- > ANU admits students twice a year, in Semester 1 and Semester 2.
- > For each semester intake, there are up to three application rounds. Apply in the first round, and you may have three opportunities to be assessed and accepted for that semester, giving you the best chance of getting a place.
- > You can only apply for one program, although you can change your preference during the application process.
- > You need to meet pre-requisite, cognate and English language requirements for your program by the application deadline for the round, as we will not be issuing any conditional offers.
- > You are ranked against other candidates applying for the same degree and places are limited.
- > You need to pay a non-refundable application fee of A\$100.

The Application process

1

Find a degree and review requirements by visiting programsandcourses.anu.edu.au

(Note: some ANU programs that have specific admission requirements may follow a different application and assessment process. For more information, visit anu.edu.au/study/apply and review page 18)

2

Lodge an application online by the relevant deadline

View the key dates on the next page or visit anu.edu.au/study/apply

3

Submit academic transcripts and evidence of meeting English language proficiency

4

Applications close and assessment begins

5

Offers released at set times

6

Accept your offer by relevant deadlines

* We use your academic qualification or sequence of study to give you an ANU Selection Rank out of 99.95. Your ANU Selection Rank is used to determine if you meet the minimum requirements for your preferred ANU program.

† If you're completing an Australian Year 12, a New Zealand National Certificate of Educational Achievement (NCEA) Level 3, or an International Baccalaureate (IB), you need to apply through the Universities Admissions Centre (UAC). Go to uac.edu.au for more information.

APPLICATION TIMELINES FOR 2020

Places are available in all ANU programs in Semester 1, Round 1. Places may not be available for all degrees in other rounds so it's best to apply early. The dates below apply to most ANU programs, check anu.edu.au/study/apply to confirm the application dates for your preferred program.

Semester 1

ROUND 1	ROUND 2	ROUND 3
Applications open 4 June '19	Applications open 13 Sept '19	Applications open 14 Nov '19
Lodge your application by 12 Sept '19	Lodge your application by 11 Nov '19	Lodge your application by 15 Dec '19
First round offers available 30 Sept '19	Second round offers available 28 Nov '19	Third round offers available 15 Jan '20
Accept your offer by 30 Oct '19	Accept your offer by 30 Dec '19	Accept your offer by 31 Jan '20

Semester 2

ROUND 1	ROUND 2	ROUND 3
Applications open 28 Nov '19	Applications open 22 Jan '20	Applications open 11 Mar '20
Lodge your application by 21 Jan '20	Lodge your application by 10 Mar '20	Lodge your application by 13 May '20
First round offers available 13 Feb '20	Second round offers available 30 Mar '20	Third round offers available 4 June '20
Accept your offer by 12 Mar '20	Accept your offer by 29 Apr '20	Accept your offer by 30 June '20

Find out more at anu.edu.au/study/apply

Please note dates are subject to minor change though information is correct at the time of publishing, September 2019. Check the ANU website for the latest dates.

Programs with alternate application procedures and dates

Are you interested in studying one of these programs at ANU?

- > Music, Visual Arts & Design Bachelor programs
- > Bachelor of Asia-Pacific Affairs
- > Bachelor of Health Science
- > Bachelor of Philosophy programs
- > Flexible Degree Programs
- > Single Year Honours

Minimum requirements for entry to these programs may include providing a portfolio, doing an audition or providing additional documents to support your application. Please check ANU Programs and Courses to see if additional requirements apply.

You will need to pay a non-refundable application fee of A\$100.

ENGLISH LANGUAGE REQUIREMENTS

Test	Diploma programs taught at ANU College	Regular Award Programs (Including Exchange & Study Abroad)	Australian National Internships Program & MChD program.
Academic IELTS	An overall score of 6.0 with a minimum of 5.5 in each component of the test.	An overall score of 6.5 with a minimum of 6.0 in each component of the test.	An overall score of 7.0 with a minimum 6.0 in each component of the test.
TOEFL** - paper based test	A score of 550 with a TWE* score of 4.0.	A score of 570 with a TWE* score of 4.5.	A score of 600 with a TWE* score of 5.0.
TOEFL** - internet based test	An overall score of 68, with a minimum of 18 in Writing.	An overall score of 80, with a minimum of 20 in Reading and Writing and 18 in Speaking and Listening.	An overall score of 100, with a minimum of 22 in each component of the test.
Cambridge CAE Advanced (Post 2015)	An overall score of 169 with a minimum of 162 in all sub-skills.	An overall score of 176 with a minimum of 169 in all sub-skills.	An overall score of 185 with a minimum of 169 in all sub-skills.
PTE Academic	An overall score of 57 with a minimum score of 50 in each of the communicative skills.	An overall score of 64 with a minimum score of 55 in each of the communicative skills.	An overall score of 70 with a minimum score of 60 in each of the communicative skills.

* TWE = Test of Written English ** The TOEFL Institutional code for the ANU is 0506. Applicants may use this code to report their TOEFL results to the university.

To meet the English Language Requirements please refer to the English language policy for more options, anu.edu.au/study/apply/english-language-requirements.

To learn more about applying to study at ANU and how we assess your application, visit anu.edu.au/study/apply

2020 MINIMUM ENTRY REQUIREMENTS

Note: Admission to ANU programs is on a competitive basis. Therefore, meeting all admission requirements does not automatically guarantee entry.

This table should be used by students who are NOT an Australian citizen, permanent resident of Australia or New Zealand citizen.

Flexible Double Arts, Social Sciences, Business and Science	4	Admission requirement is the higher cut-off of the two degrees, including prerequisites.											
Flexible Double Engineering and Advanced Computing	5												
Flexible Double Law	6												

1 The University reserves the right to alter or discontinue its programs as required. Please note that not all degrees are available to commence in Semester 2. The scores published should be used as a guide for the listed year only, and the University may vary these requirements at any time.

2 STPM best of 3 subjects (A=7, A-=6, B+=5, B=4, B-=3, C+=2, C=1). UEC best 5 subjects (A1=1, A2=2, B3=3, B4=4, B5=5).

3 UK GCE A Levels best 3 or best 4 subjects, whichever provides the higher rank (A*=6, A=5, B=4, C=3, D=2, E=1). All A Level exams must be taken in the same academic year, with the exception of one subject which can be from the preceding or following year.

4 Singapore A Levels entry for all programs (except Law) is the total of the best 3 H2 subjects (A=5, B=4, C=3, D=2, E=1) and the best H1 subject (A=2.5, B=2, C=1.5, D=1, E=0.5). The H1 subject may be content-based, General Paper or Knowledge & Enquiry. Mother tongue cannot be included in the calculation.

5 OSSD average of best 6 grade 12 University Preparation Courses or University/ College Preparation Courses, including English (ENG4U). BCCG average from all grade 12 subjects except Graduation Transition (A=4, B=3, C+=2.5, C=2, C-=1, F=0).

6 Korea CSAT aggregate is the sum of the four standard scores in Korean Language, Mathematics and Science (best 2 scores) or Social Studies (best 2 scores).

7 HKDSE best 4 subjects excluding Chinese Language, Physical Education, Technology and Living, Tourism and Hospitality, Health Management and Social Care, and Religious Studies (5**=6, 5*=5.5, 5=5, 4=4, 3=3, 2=2, 1=1).

8 Students completing the International Baccalaureate, both in Australia and overseas, are encouraged to apply through the University Admissions Centre (www.uac.edu.au) as they may be eligible for subject adjustment factors. If students choose to apply directly to the ANU instead, they will not be eligible for subject adjustment factors and are required to nominate the ANU to receive their results directly through the IBO website.

9 ISC average from marks in English and best 3 externally examined subjects. AISSC total of best 4 externally examined subjects (A1=5, A2=4.5, B1=3.5, B2=3, C1=2, C2=1.5, D1=1, D2=0.5).

10 As well as presenting SAT or ACT results, students must also present: US-accredited high school diploma with an overall WGPA of 3.2 out of 4.0 (programs with an ATAR requirement below 90) or WGPA of 3.5 out of 4.0 (programs with an ATAR requirement of 90+). Students applying for entry to a Diploma program require a GPA of at least 2.0 out of 4.0.

11 Gao Kao requirements are for tests taken from 2017 onwards. Students who previously sat the Gao Kao with different total marks (Shanghai 600, Zhejiang 810) will be assessed using the university's previous requirements. Please contact the Admissions Office for further information if this applies to you.

12 Acceptable Foundation programs include (but not limited to): ANU College, Monash, U Melbourne, U Adelaide, U Sydney, UNSW, UQ, and UWA. The ANU College of Business and Economics also accepts Foundation results from: Renmin U, Shanghai U of Finance & Economics, Tsinghua U, Xiamen U.

‡ This degree program has further selection criteria in addition to academic results.

** The results listed in this table are the minimum required for consideration. Selection is case-by-case and requires approval from the academic area.

◦ This program is only available for Semester 1 (February) commencement. Any exceptions are at the discretion of the academic area.

• A limited number of places are available in this program. It can only be commenced mid-year at National University of Singapore, and offers must be accepted by the preceding February.

ACCOMMODATION

Be a part of our residential community on campus.

Living on campus, you'll form close bonds through shared experiences with your peers. You will become part of an important support network as you help each other through assessments, exam periods, and the ups and downs of university life.

ANU has 12 different residences for undergraduate students. You can nominate a fully-catered, self-catered or apartment-style residence. All have laundry facilities, outdoor spaces and study rooms, and are within easy walking distance to shops, cafes, restaurants, sporting facilities, nightlife and public transport.

Go to anu.edu.au/study/accommodation for more information.

Cost of living

In addition to accommodation costs, you will also have other costs to consider when moving out of home to study at university. It is a good idea to make a list of your expenses, for example: mobile phone and internet, textbooks and stationery, and transport and entertainment. Draw up a budget based on your circumstances to help you work out how much money you will need to live on while you are at university.

Go to anu.edu.au/students/program-administration/costs-fees/cost-of-living for more information.

Guide to ongoing weekly expenses

Allow about \$400 AUD per week to cover food, accommodation, transport, electricity, internet, telephone bills and entertainment.

ANU-recommended accommodation

If, due to various reasons, you're unable to secure accommodation on campus, the ANU recommends the following accommodation options off campus:

- > Weeden Lodge (self-catered)
- > The Australian Institute of Sport residences (fully-catered)
- > University of Canberra Village (self-catered)

All of these residences are located in the Canberra suburb of Belconnen, and are an easy bus ride to ANU. They provide some pastoral support to all residents and any agreements entered into with these locations are between the student and the provider.

- > anu.edu.au/study/accommodation/advice-procedures/university-recommended-accommodation

ANU Undergraduate Accommodation Guarantee

We guarantee accommodation to first-year international and interstate domestic students who:

- > receive and accept their offer to study at ANU within the advertised dates
- > apply for accommodation before the closing date
- > are in their first year of study at ANU, starting in their first semester, whether that is Semester 1 or 2
- > are enrolled full-time.

Wright Hall	Semi-catered	from \$400.00	\$300.00	\$1,000.00	\$180.00

* 21 meals per week.

^ 16 meals per week

** Additional utilities/data charge of \$29 per week included.

Please note: Some halls, colleges and lodges charge extra for phone, internet connections and other services.

The fees listed in the table are for 2019 and subject to change. Go to anu.edu.au/study/accommodation/cost-comparison for updates on current fees and any other costs involved. All figures in this table are in Australian dollars.

Marlon Ma

China
B. Science (Psychology)

"Moving overseas is a big deal. You might be feeling excited, adventurous, and perhaps a little nervous. You're adapting to a new home, new university, new language and new friends."

Or, unexpectedly in Marlon's case, adapting to new food.

"Pasta in Australia is great!" gushes Marlon.

After just two weeks in Canberra, 20 year old Marlon is already enjoying the fruits of this multi-cultural country.

"It's my first time in Australia. Everything's fabulous!

I'm really curious about the Australian university life and experience." Aside from adjusting to new food, Marlon along with his fellow peers have adapted to a new campus culture and way of life, where they live together at Fenner Hall and are supported by staff at ANU.

"Fenner Hall hosts lots of events and activities, it's like a community. Last night we had a tea night with Tim-Tams. I've already signed up to the ANU Basketball Club, Psychology Society and some Chinese clubs to meet other Chinese students." Having only just begun his life as an ANU student, Marlon is looking forward to trying the next cuisine on his list, Mexican, and continuing to expect the unexpected when it comes to life in Canberra and at ANU.

SCHOLARSHIPS

There are a number of scholarships available to perspective ANU students to help with the cost of your studies. Donors and benefactors, external organisations and the Australian Government fund many of the scholarships we offer. Scholarships are awarded for a range of things including academic merit, financial need and equity and accessibility.

To apply for scholarships visit anu.edu.au/study/scholarships

Andrea Bedón Pineda

Ecuador

"Andrea travelled from her home in Ecuador to study at ANU, working in world-leading laboratories and with experienced professors to ensure her future as a successful engineer. Upon graduating high school, Andrea was awarded the Universidades de Excelencia, a government scholarship offering her the opportunity to study at any of the top 50 universities in the world. Of all the countries she could choose from, Andrea was immediately drawn to Australia's warm climate.

Ultimately, ANU was the perfect fit. It offered Andrea's specific degree, Engineering majoring in Renewable Energy Systems, at an undergraduate level. Within this degree, Andrea was positive she would gain the skills necessary to develop technology that could help communities. "This engineering degree will give me the technical skills and the analytical skills to solve global problems, such as climate change."

SUPPORT SERVICES

If you need help ANU has a range of support services on offer.

Academic Skills and Learning Centre

This service can help you to develop the academic and communication skills on which all academic work is based. You can make one-on-one appointments, attend workshops or just drop-in, while taking advantage of the many self-help resources the centre provides.

> anu.edu.au/students/contacts/academic-skills-learning-centre

SET4ANU

This is a free orientation program to help new students make the transition to life at ANU. When you sign up to the program, you'll be assigned a senior student who will introduce you to other students studying similar degrees. They will also help with finding your way around campus, show you how to use ANU online systems and sign up for tutorials, the gym and clubs and societies.

> anu.edu.au/students/information-for/new-students/set4anu-program

ANU Access and Inclusion

The Access and Inclusion team is there for you if you have a disability or medical condition, or if you're a primary carer to someone with a disability. They'll help you get the most out of your time at ANU by giving you support and making adjustments that will minimise the impact of disability on your education. They also provide diversity support and training.

> anu.edu.au/students/health-wellbeing/diversity-inclusion

ANU Careers Centre

The Careers team can equip you with the knowledge and tools to successfully navigate your future career. Learn to plan your career using career target strategies, personal and professional development tools. You can drop in for a one-on-one chat or use the CareerHub to look for a job, work experience and internship opportunities; online career planning; application resources; seminars; workshops; employer presentations and careers events.

> anu.edu.au/students/careers-opportunities/careers

ANU Counselling Centre

The Counselling Centre is a free and confidential service for all currently enrolled ANU students. There are also group programs for common issues, public seminars, and a peer support walking program.

> anu.edu.au/students/health-wellbeing/counselling

After Hour Crisis support Line

This service is intended to help callers find immediate relief from emotional distress, explore coping strategies for the current crisis, safely manage any immediate threats to life or safety, open pathways for longer-term solutions and focus specific next steps for the caller to take

ANU Crisis Support Line 5pm-9am weekdays, 24/7 weekends and public holidays

> Phone (voice calls only): 1300 050 327
> Text: 0488 884 170

2018 ANU Open Day

INTERNSHIPS

Get job-ready skills and contribute to something bigger than you. Take on some amazing internships here and overseas, some of which are exclusive to ANU.

Australian National Internships Program

An elite opportunity for you to undertake a 12-week research-oriented internship with many of the national institutions based in Canberra including the ACT Legislative Assembly, government departments and agencies, embassies and diplomatic missions, cultural institutions, leading NGOs, industry organisations, think-tanks and policy research centres.

The Australian National Internships Program (ANIP) is the only university program that offers Australian Commonwealth Parliamentary Internships. Interns are based in the offices of Members of Parliament and Senators and engage with a range of portfolio activities that shape national policymaking.

Taiwan Public Policy Internship Program

Head to Taiwan and undertake a six-week research internship with a department or agency in the Taiwanese Government.

The Taiwan Public Policy Internship Program can be undertaken by students of the ANU School of Politics and International Relations for course credit.

Washington Internship Program

Offered through the ANU School of Politics and International Relations, you will get to experience political life in Washington DC over seven weeks in the United States Congress.

You'll work in the offices of Members of Congress or on the staff of Congressional committees while completing a program of research on a specialised aspect of American government, politics, and public policy.

Keat Hui (Brandon) Ng

Malaysia
Bachelor of Actuarial Studies

Bachelor of Actuarial Studies student Keat Hui (Brandon) Ng was named Undergraduate Intern of The Year 2017 for his excellent performance in an internship with aviation surveillance consultancy IE Asia Pacific.

He says that taking part in the CBE Internship Program has given him a competitive edge compared to his peers.

"The exposure to working for an Australian company is very valuable for international students like me. It enabled me to reflect on my own strengths and weaknesses when it comes to a real-life working environment. Thanks to my internship host, I had the opportunity to apply what I have learnt throughout my degree into my internship project," Brandon said.

His workplace supervisor Dominic Nadvillaveetil nominated Brandon for the award, to recognise Brandon for being hardworking, focused on the job, a great team player and for going above and beyond the requirements of his internship to deliver a useful business solution.

Reflecting on the internship program, Mr Nadvillaveetil said "the interns worked on a critical piece of information which the company wanted to research. The experience was fantastic as it gives us a chance to work with new and motivated young students like Brandon who are looking to prove themselves.

GLOBAL OPPORTUNITIES

Expand your horizons and incorporate overseas experience into your study program through these exclusive opportunities at ANU.

IARU Global Summer Program

ANU is the only Australian member of the International Alliance of Research Universities (IARU).

Through IARU, you can study at some of the world's top universities for up to six weeks and connect with outstanding peers around the world.

IARU Partner Universities

- > University of Cambridge, UK
- > Yale University, USA
- > University of Copenhagen, Denmark
- > ETH Zurich, Switzerland
- > University of Tokyo, Japan
- > University of Oxford, UK
- > University of California, Berkeley, USA
- > Peking University, China
- > National University of Singapore
- > University of Cape Town, South Africa

Year in Asia

The Bachelor of Asia-Pacific Studies (Year in Asia) is designed to help you establish yourself as a future leader in the region and the experience will build on the strengths of your three-year degree, helping you to further develop language and cultural proficiencies.

PRIMO First Year Learning Abroad Programs

No other Australian university offers a comprehensive travel abroad program for first-year students. PRIMO is a Learning Abroad initiative in which you can undertake short, multidisciplinary, overseas learning experiences as part of your first-year studies. Here's what you could be doing next summer:

- > Take in the beauty of Kyoto, learning about Japanese language and culture.
- > Head to old world Budapest in Hungary, the Pearl of the Danube, to study business and marketing.
- > anu.edu.au/students/careers-opportunities/global-programs

Student Exchange

Overseas travel gives you opportunities to study courses beyond those offered at ANU, make friends and form global networks, and to build skills and knowledge that can expand your career options.

You can undertake a traditional exchange opportunity with one of our 170 partner universities across 39 countries. Apply to spend one or two semesters at a leading university in one of these distinctive destinations, while you earn credits towards your ANU degree.

Desiree Davison

USA
At ANU on exchange from University of Texas at Austin

Desiree Davidson is on exchange to ANU in Semester 1 2018 from the United States- University of Texas at Austin, McCombs School of Business.

"ANU provides a wide array of student support services. The University Counselling Centre offers 6 sessions a semester for FREE to enrolled students with an inclusive approach to well-being that understands how mental and physical health can intertwine. Throughout campus and surrounding areas, there are trails, maps, and stations that include workout instructions open to all people."

CAMPUS LIFE

Kambri – ANU Student Hub

The name Kambri means 'meeting place' and was given to the University by the ACT's four Indigenous communities. This exciting new innovation and cultural precinct in the heart of the ANU will incorporate;

- > 7 new buildings
- > 25 meter pool and brand new gymnasium
- > medical centre
- > student theatre
- > events centre with large and small auditoriums
- > home to live music and entertainment
- > retail services including food outlets, cafes and bars with extended trading hours

For thousands of years, Kambri has been a 'meeting place' and our vision is for people to continue to gather to meet, learn, to teach and to celebrate at ANU. See it for yourself at kambri.anu.edu.au.

ANU+

Recognition of volunteering through ANU+ enables you to give back to the community, develop your skills and gain valuable life experience. Your contribution and experience is formally recognised and encourages you to gain a deeper understanding of yourself and the world around you.

anu.edu.au/students/careers-opportunities/volunteering/anu

Get involved

Are you a budding writer, a chocoholic, an aspiring Quidditch player or just want to connect culturally? At ANU we have over 150+ clubs and societies to help you get involved with like-minded people.

Campus tours

ANU offers personalised tours of our beautiful campus and we tailor the tour to suit you. We welcome students from all around the world.

A guided on-campus tour is a fantastic opportunity to get a closer look at university life. We design your tour to make sure you see the facilities available to our students, while also giving you the opportunity to make connections with ANU staff. ANU Student Ambassadors assist with these tours and are able to provide first-hand information about their experiences at the University and the degrees they study.

Tours are free and run 9am-5pm Monday to Friday (excluding public holidays).

For more information and to book a tour, go online at anu.edu.au/study/events/campus-tours

CANBERRA COMMUNITY

You will come to understand why Canberra is consistently rated one of the world's best cities for quality of life.

Best city to visit

Lonely Planet has ranked Canberra the World's 3rd best city to visit in 2018

Global community

A city of just over 411,000 people with more than 27% of our residents born overseas, countless embassies and national institutes, Canberra has a strong sense of community; our global community.²

Best student city

QS Best Student Cities 2018 has ranked Canberra in the top 25 cities in the world to live and study.¹

Safest

Canberra is considered one of the safest cities in Australia with one of the lowest crime rates.³
