Find yourself here...

# Check this out...

Deciding where to go to college is a huge decision. You'll want to know about the school and the classes, sure. But you also need to feel like you'll be a part of things. Will you fit in? Can you talk to the professors? Is this really the place that will help you reach your goals?

At California University of Pennsylvania, students are our first priority. We're here to facilitate learning and to encourage discovery. Not just in the classroom, but through day-to-day experiences. We're here to foster friendships and to create self-confidence. To build the foundation you need for a successful career. We're here to help you become the individual you've always dreamed of being. Our campus is a vibrant, diverse and welcoming community that is growing every day. As a result, our students not only graduate with a diploma, but with a degree of character as well. Want to know more? Come inside and get to know us.

## Find your way...

In your first semester, you'll learn a lot of the skills you will need to succeed at Cal U and in life. You'll also get help from the people in Career Services. You may not know what you want to major in, but they'll show you how to focus on your own talents and interests when choosing a career and developing an educational plan that's right for you.

### Pathway to success

At Cal U, the Career Advantage Program provides a "checklist for success" to help students choose the right major. Career Advantage is a four-year plan that begins on your first day with the First-Year Seminar. Over the course of time, you'll work closely with Career Services, planning for internships and co-ops, and following the path that will lead to a rewarding career. What's more, Cal U is one of only a few schools to provide official transcripts for co-curricular activities in addition to academics and student involvement on campus. Your Activities Transcript will increase your marketability to prospective employers down the road.

CAL U OFFERS  
MORE THAN

**150**

undergraduate  
programs and 50  
graduate programs

### Discover the real you

Self-discovery is the first step toward building character. Cal U offers endless opportunities for you to learn more about yourself, discovering hidden skills and talents. As a medium-sized community of about 7,400 undergraduate students, we're small enough to feel like a family, but large enough to offer variety and diversity. We've learned that if you get involved with campus organizations, study abroad or even make plans for graduate school, you'll gain a greater sense of who you are, as well as who you want to become. Preparing you for life after graduation is a big job. But at Cal U, a staff of professionals is always there to help, every step of the way.

“The opportunity of a lifetime is waiting for you here at Cal U. I guarantee that you will have an unforgettable experience here.”

MICHAELA PRATER  
GRADUATE STUDENT

### A class act

Think you want to teach? You'll spend 30 hours in the field before you even enter the education program. Why? To make sure that teaching is right for you. Cal U placed teachers in about 30 school districts last year. Our teachers-in-training get real, hands-on experience. For graduates, that translates to jobs.

### Get real

At Cal U, character development begins with our core values: Integrity, Civility and Responsibility. When these values are coupled with real-world training, something amazing happens. We see a big difference in the type of jobs our graduates get and a difference in the types of employees they eventually become. So before our students graduate, nearly all gain real-world, hands-on experience in their fields — whether it's through job shadowing, internships or cooperative education. Our Internship Center is a busy place — one we think you'll find particularly interesting. At Cal U, we pride ourselves on our outstanding network of professionals in a variety of fields who can help you turn your dream into a career.

## { success story }

For Jim Lokay, traffic reporter on Pittsburgh's KDKA-TV, deciding on a college was easy. He knew about the reputation of Cal U's TV station, CUTV. Unlike other college-based television stations, CUTV gives students the opportunity to program, produce and explore all angles of the industry. So by the time Jim graduated from Cal U, he had solid experience in all facets of broadcasting. After gaining valuable career experience at Metro Networks, and as a reporter and weekend anchor in Syracuse, N.Y., Jim is back in Pittsburgh, continuing his career in a job he really loves.

# {paving the way}

As an undergrad at Augsburg College in Minneapolis, Taunya Marie Tinsley was an all-conference basketball star with an interest in counselor education. Today, Dr. Tinsley is not only a dynamic assistant professor at Cal U, she's a nationally recognized expert in an emerging field: athletic counseling.

As program coordinator for the National Football Foundation and College Hall of Fame's Play It Smart Program, she helps student athletes transform their passion for sports into a force for greater good in their lives.

## Our professors really care...

They do more than just teach. They show students what it's like in the real world. They will talk to you about what you want to do with your life. You'll actually learn here, not just memorize things in order to pass a test. Cal U will change the way you think about your education and your life.

### Show, don't tell

Academic excellence is not just a goal at Cal U. It is the driving force that influences all we do. To maintain our high standards, we rely on an exceptionally talented faculty — world-class professors, many of whom continue to work actively in their fields. Whether they're in the classroom or conducting an online course, their hands-on approaches will change the way you think about learning.

### A passion for teaching

Our faculty includes Fulbright scholars and recipients of grants from both the National Science Foundation and National Endowment for the Humanities. They regularly present at national and international conferences and symposiums, conduct important research, publish scholarly papers and consult with countless corporations, organizations and governments. But, at the end of the day, their main reason for coming to work is to pursue their passion to teach, motivate and inspire students. At Cal U, learning comes from more than just books. It's carved out of real-world experiences that you just can't get from behind a desk.

ABOUT

**80%**

of the teaching faculty hold Ph.D.s or other terminal degrees in their fields

### Something for everyone

Interested in a career in graphic design — or perhaps criminal justice? You belong in the **College of Liberal Arts**, where there are majors in fields as diverse as pre-law and theatre arts. **The Eberly College of Science and Technology** offers majors in growing fields such as electrical engineering technology, robotics engineering technology, business administration, environmental studies and computer information systems. **The College of Education and Human Services** is the ideal place to prepare for a career in teaching, social work or sport management.

### Getting you there

In addition, there are numerous associate degree and certificate programs, and options for online classes. A variety of student support services, including the University College and the Office of Student Retention and Success, will give you the extra help you need to achieve your personal and academic goals.

AVERAGE  
STUDENT TO  
FACULTY RATIO  
**19:1**

### Courses that become you

California University is composed of three undergraduate colleges, as well as the School of Graduate Studies and Research. There is an academic program that is perfect for you and a proven method to help you graduate in four years. Most undergrads choose to study on our main campus, but many find the Southpointe Center a convenient alternative for commuters or working students. There are also special programs, such as professional development courses, that are geared to members of the community and to local businesses.

“ I always tell my students: When you graduate, you’ll have a great sense of who you are, what your strongest skills are, and how to sell your strengths — no matter what field you go into. ”

PROFESSOR MICHAEL J. SLAVIN  
CHAIR, DEPARTMENT OF THEATRE AND DANCE

# Step out of your own shadow here...

Getting involved on campus can make the transition from home to college life much easier. With about 250 student clubs and organizations, you can try your hand at everything from the Anthropology Club to the Young and Gifted Gospel Choir. Each group will help introduce you to new friends and, most of all, will help you to learn more about who you want to be. In addition, each University activity is recorded on your Activities Transcript, which is a great way to share all of your out-of-classroom experiences with potential employers.

## Living and learning

Cal U is a place where students step up — and step out. Whether you're involved in student government or serving as a volunteer firefighter for the local community, you have the opportunity to grow as a person of character. As our students learn more about themselves and the world they live in, they often receive national awards and recognition. These types of experiences enhance their education and become the stepping stones to a great career.

## Begin with the end in mind

At Cal U, we think that character-building is just as important as academics. Because we believe so strongly in providing our students with the tools for success, we have a whole department dedicated to building leadership. We also offer Stephen Covey's *7 Habits of Highly Effective People* training free to students. Guess who is one of the course instructors? It's Cal U's president, Dr. Angelo Armenti, Jr.

NEARLY  
**68%**  
of internships lead to offers for full-time employment.\*

\*The National Association of Colleges and Employers 2010 survey.

“ Cal U eliminated the fear, the doubt and the worry that held me back from reaching my ultimate potential. They provided me with the education and the opportunity for my childhood aspirations to become a reality. ”

CRAIG SHOEMAKER '10  
AWARD-WINNING WRITER, STAND-UP COMEDIAN AND COMIC ACTOR

“ I think that the study-abroad experience helped me to have a better understanding of myself and my world, as well as appreciate all the things that we have here in America. ”

BRANDIE DEPAOLI TAYLOR '06  
 MAJOR: BIOLOGY, PRE-MED CONCENTRATION  
 THE SCHOOL OF FIELD STUDIES: KENYA

**Get going**

Discover where you want to go and who you want to become. Begin by getting involved with University Forum, the school's governing body. With as many students as faculty represented, it's a powerful organization, and a great way for students to connect. Interested in discussing new ideas? Cal U sets aside a whole day just for that purpose. On Mission Day, classes are canceled and offices are closed to allow students, faculty

and staff to meet and discuss things in a free and open forum. To keep the dialogue going, the President holds leadership luncheons and focus groups with students every month.

**Get growing**

There are so many opportunities here. Whether you choose to stay on campus and be a peer mentor, travel to the other side of the world or accept a cool internship, it will definitely be a learning experience.

{ a journey begins }

When he was in eighth grade, Casey Durdines '07 proclaimed that some day he would be mayor. In 2005, Casey, then a 20-year-old college junior, became the youngest mayor to be elected in California borough history. He is now in his second term. Casey, who graduated with a degree in Public Administration, says training in Stephen Covey's *7 Habits of Highly Effective People* "helped me change the way I think and the way I respond to situations I am presented with." Classes with history and political science professors Drs. Melanie Blumberg, James Wood, Joe Heim and Mohamed Yamba "were found to be very valuable in my position as mayor."

Where will your journey lead you?

who you are

# New doors will open every day...

Cal U offers internships and cooperative education (paid career-related experience that can be done as early as the summer after your freshman year) to prepare students for the real world.

## The competitive edge

As a student at Cal U, you'll learn to work hard and hone your skills. But you won't be alone. Professors and our Career Services Office are here to help. By the time you graduate, you'll be more than ready to break into today's competitive job market. You will find our graduates dotting the globe, employed by prestigious private companies, government agencies and educational institutions both large and small.

“Some of the best compliments I've received have come from grad schools. They say our students are so well-prepared and so energetic. It's a testament to what we do here.”

ASSOCIATE PROFESSOR CHAD KAUFFMAN  
DEPARTMENT OF EARTH SCIENCES

## { stories told }

At Cal U, hands-on learning means that we take education out of the classroom and into the real world. Whether you're out on a dig with our archaeological field school, spending two weeks as a "storm chaser" or discovering how technology is used for crime scene investigation, you'll gain practical experience from professors who are real pros in their fields — men and women who want to share their knowledge with their students.

Internships, job shadowing and cooperative education are ways Cal U students get hands-on experience. Recent student internships include:

- FBI
- Interpol
- Late Show with David Letterman
- International Criminal Tribunal for the Former Yugoslavia, The Hague, Netherlands
- National Drought Mitigation Center
- Walt Disney World
- Delta Waterfowl Foundation, North Dakota
- Urban League of Indianapolis
- Nemaocolin Woodlands Resort & Spa
- Lawrence Berkeley National Laboratory
- Firestone Country Club
- MARC USA
- World Kitchen, LLC
- Penn State Nanotechnology Education Program

MAJOR: MARKETING  
INTERNSHIP: PITTSBURGH ZOO

### Building careers

Our curriculum is expanding to prepare students to be competitive in a technologically advanced world. Whether you're studying nanotechnology in our Applied Engineering and Technology Department or cyber law in our

Business and Economics Department, you'll have a head start on the future.

EVERY YEAR MORE THAN  
**3,000**  
Cal U students obtain internships or other off-campus learning experiences

When you graduate from Cal U, you'll leave with a broad background that will enrich both your career and your personal life. You will have acquired practical skills through many courses of hands-on study. You'll leave here with confidence instilled in you by caring, inspiring professors and mentors.

no doubt

# Open the door and be "wowed!"

Enter the "suite life" at Cal U! Our new residence halls and apartments were built based on student feedback. They offer the comforts of home, technological amenities, privacy for quiet study, and ample space for the camaraderie of college life.

## Welcome home

Cal U's new student housing is among the best in the nation. We offer six smoke-free, co-ed residence halls that house 1,496 students on the main campus. All units feature air conditioning, carpeting and free local telephone service, cable TV and high-speed Internet connections. Most students share a bathroom with only one other person, and never more than three others. Want a place to study or hang out? Each residence hall is equipped with a computer

lab, community room, TV area with large-screen TV, a kitchen and vending area. There are lounges and study rooms on every floor, along with recycling areas and a laundry room. Honors Program students also have the option of living in Honors Hall.

THE MAIN  
CAMPUS HAS  
**6**  
air-conditioned  
residence halls

“Since I moved into the residence halls, I've made so many great, new friends – it feels like I never left home. I love living the Suite Life!”

HOLLY McKEAN  
MAJOR: ELEMENTARY EDUCATION

## A room with a view

Vulcan Village, our garden-style apartment complex on the south campus (approximately one mile from the main campus) accommodates 768 students and is designed primarily for upperclassmen, with rooms assigned on a first come, first served basis. Each apartment features a fully equipped kitchen, living room, dining area, and washer and dryer.

### Just your style

Want to be surrounded by people with interests similar to yours — like fellow band members, club members or fraternity/sorority Greeks? Choose to live in one of our Specialty Housing Communities available in the residence halls. There's even a Wellness Community for those interested in a healthy lifestyle.

### Safety first

For your protection, Cal U's residence halls are locked 24 hours a day. As a resident, your key and CalCard will open the doors to your residence hall and to the wing in which you live. All entrances and exits are equipped with 24-hour digital security cameras, and emergency phones are located at the front entrances.

### Freshmen facts

Currently, about 70% of our on-campus residents are freshmen. That's due, in part, to a requirement that students live at home or in University housing for their first four semesters.

### Ground rules

All residence halls are co-ed — either by floor, wing or room. Residence halls are locked 24 hours a day. Lots of students personalize their rooms by bringing quilts, pillows and pictures that remind them of friends and family. Feel free to personalize your room in your unique style, but remember to abide by the University rules. While living on campus is a great experience — and lots of fun — students are expected to incorporate University values into every aspect of residential life. This means treating roommates, neighbors and their property with the utmost respect.

sweet

# {fitting in}

Although she is living away from home, Ana Villagomez stays close to her roots as an active member of the Hispanic Student Association. The organization helps to promote Hispanic culture and provides support and a sense of community to all Cal U students interested in Spanish and Latin American cultures. "Being a part of HSA has helped me to meet people and become familiar to the campus and to other organizations at Cal U." So what's the best experience she's had at Cal U so far?

"I love living on campus," Ana says. "The 'Suite Life' fits me."

## Shape up

Keeping fit is a great way to manage stress and stay healthy while adjusting to your new college schedule. Herron Hall, home to Cal U's fitness center, features brand-new workout equipment, an elevated jogging track, a swimming pool, basketball and handball courts, an aerobics studio and more. To really get your heart pumping, try out the new indoor climbing obelisk!

## Make new friends in an instant...

Cal U offers many opportunities for you to expand your professional network, learn from cultural diversity and develop personal friendships that can last a lifetime.

### Expand your mind

Because building character is such an important part of who we are, you'll have tons of opportunities to broaden your world without ever leaving campus. From hearing guest speakers to hanging out at the Underground Café after enjoying the latest releases at Vulcan Theater (Cal U's free movie theater), you and your friends will always find things to keep you busy learning and laughing.

### Food for thought

Cal U has a meal plan to fit every lifestyle — and appetite. Whether you're looking for coffee between classes, late night pizza with friends or a healthy salad, you'll have plenty of options on campus. The University offers both traditional and block meal plans for on-campus residents. Dine at the "all-you-care-to-eat" Gold Rush cafeteria. Or grab a bite at the Food Court, one of our convenience stores, or Taylor and Byrnes Café.

OUR STUDENTS

## Something for everyone

Students at Cal U have a variety of opportunities to achieve both academic and personal success. Manderino Library, with its high-tech capabilities, is a terrific resource and a great place for students to study and collaborate on projects. The University Health Center, Campus Ministry and the Commuter Council are just a few of the services that make student life here so fulfilling. Need help with special subjects? Visit our Writing Center or Math Lab. Interested in learning how to take charge? Join our Emerging Leaders organization. There's something for everyone at Cal U.

“This is such a great school, I would not change it for the world.”

GREG BRYANT, PEER MENTOR

# Put your game face on...

Academics are important, of course. But the rest of your life matters, too. Being part of a team will make you a stronger individual.

## Fields of dreams

Athletic facilities at Cal U are top notch, just like the students who use them. Whether they're diving into the six-lane Hamer Pool or playing at the new Convocation Center, Adamson Stadium, the 3,600-seat Hamer Gymnasium, CONSOL Energy Park, or one of the 15 fields and seven courts at Roadman Park, Cal U student-athletes learn what it takes to have a winning attitude, both on and off the field.

## A winning combination

When it comes to athletics, character-building is all a part of the game. In addition to competitive teams, Cal U offers sports-related academic programs that build careers, too. For example, in our Physical Therapy and Sports Medicine Clinic, students get hands-on experience using the latest equipment for sports rehab and conditioning. And the Professional Golf Management Indoor Golf Center at Gallagher Hall features a 1,200-square-foot putting green, a chipping turf and a state-of-the-art simulator room.

**3**

NCAA Division II team National Championships

### Get in the game

Cal U competes in NCAA Division II intercollegiate athletics with 16 varsity teams. Interested in intramural and club sports? Take

a look at our list of clubs — from baseball to hockey and rugby to equestrian and everything in between — you'll find just what you are looking for.

### Strong minds, strong bodies

Training facilities for Cal U athletes are outstanding, but you don't have to play for a Vulcan sports team to benefit from the modern Herron Recreation and Fitness Center, a first-class health and fitness club located in the center of our campus.

# {athletic honors}

A total of 225 California University of Pennsylvania student-athletes, representing all sports, were named to the Spring 2011 Vulcan Athletic Director Honor Roll. For the 10<sup>th</sup> consecutive semester, our athletic programs compiled a cumulative grade-point average (GPA) of 3.00 or higher.

The Vulcan women's track & field team led all sports with 39 representatives on the Honor Roll, followed by football (34) and women's cross country (26). Women's golf led all programs with 100 percent of its team on the honor roll. Overall, the Vulcans posted a cumulative GPA of 3.186 this semester.

Athletic and academic excellence is a priority for our entire coaching staff at Cal U, and we are exceptionally proud of our student-athletes' accomplishments on and off the field.

“Not only do our students grow as athletes, they grow as individuals, because they're learning that the sky's the limit. They learn to be motivated, determined and work toward achieving their goals. That's why, for me, it's such an honor to coach here — because you're an educator, you're a mentor and you're a friend.”

## Find your voice...

Students find themselves in all sorts of ways — experiencing diverse cultures, pursuing interests, exercising talents and learning about the world around them. At Cal U, finding your place will be rewarding and fun.

### Let's go!

Our rural setting is the perfect place to experience new things. Within minutes, you can find yourself hiking, biking or horseback riding. Whitewater rafting, swimming, canoeing and kayaking are also nearby. Just 45 minutes away, you'll find exciting skiing and snowboarding in the beautiful mountains of Pennsylvania.

Interested in big city culture, shopping and sports teams? Pittsburgh is just 35 miles away — a quick bus ride will get you there and back. In the city you will find world-class museums, dining and sports. Come to Cal U... and find your place here. You'll experience four amazing years of fun, friends and a college experience unlike any other.

### Come Home to Cal U

### Don't be shy

College is all about new experiences — and the ideal time to soak up a little culture. Try your hand at a fine arts course. Learn to appreciate classical music. Or simply be inspired by art in the world around you. Next time you visit, treat yourself to a self-guided tour of Cal U's campus art. Don't miss the exquisite stained-glass windows depicting Pennsylvania wildflowers in the Grand Hall of Old Main, and the magnificent Ascent of Humanity sculpture in Old Main Park.

### Take a bow

If you are into the performing arts, you will be glad to know there are six theater productions each year. Whether on stage or behind the scenes, participation is open to all students. For those interested in dance, Cal U offers classical and contemporary — with two performances each year. Are you a musician? Our marching band, concert band or jazz ensembles may be just the place for you.

**THE CONVOCATION CENTER AT CAL U**

This brand new facility is the largest indoor venue between Pittsburgh and Morgantown, W.Va. This spectacular state-of-the-art building houses a 6,000-seat arena and will be the new home of the Vulcan basketball teams.

With 142,000 square feet of event space, the arena also will be used for Commencements, convocations and other campus gatherings. This spacious facility gives Cal U the ability to host athletic tournaments, trade shows, job fairs, music concerts and other public events.

In addition to the arena, the building houses more than 16,000 square feet of "smart" classrooms equipped with audio, video and computer networks, Wi-Fi, videoconferencing and interactive response systems.

**A proud member of the Pennsylvania State System of Higher Education**

Students enrolled at Cal U are part of a family of 14 universities across the commonwealth known as the Pennsylvania State System of Higher Education. Founded on July 1, 1983, the mission of the State System is to provide high-quality education at an affordable cost. System universities are able to pool resources, thereby giving students access to services they may expect to find only at a very large campus. As a system of public institutions, the influence of the universities reaches far beyond the campuses. The 14 universities enroll nearly 120,000 students. Once graduated, students are part of a network of more than 652,000 alumni worldwide, of which more than 454,000 live in Pennsylvania.

California University of Pennsylvania is a member of the American Association of State Colleges and Universities and the American Association of Colleges of Teacher Education. The University is fully accredited by the American Association of Colleges of Teacher Education, the Commission on Higher Education of the Middle States Association of Colleges and Schools, and National Council for Accreditation of Teacher Education. Many degree programs are accredited by their specific agencies or affiliated organizations. Program offerings are subject to change. For a full listing, please visit [www.calu.edu](http://www.calu.edu).

## Come and see for yourself...

Visiting Cal U is the most important thing you can do to begin your journey. For more information, call us, visit our website or e-mail us today. We'll set up a campus tour, show you around and spend plenty of time with you and your family to answer all of your questions. Or plan to attend one of our scheduled open houses:

**FALL DISCOVERY DAYS**  
 SATURDAY, OCTOBER 1, 2011  
 MONDAY, OCTOBER 10, 2011  
 SATURDAY, NOVEMBER 5, 2011

**SPRING ACADEMIC OPEN HOUSE**  
 MONDAY, FEBRUARY 20, 2012  
 SATURDAY, MARCH 3, 2012  
 SATURDAY, APRIL 21, 2012

**We can't wait to meet you!**

# CALU

CALIFORNIA UNIVERSITY OF PENNSYLVANIA  
 BUILDING CHARACTER. BUILDING CAREERS.

it all starts here

California University of Pennsylvania is an academic community dedicated to the ideals of justice, fairness and equal opportunity for all. In compliance with federal and state laws, the University is committed to providing equal educational and employment opportunities for all persons without regard to race, color, sex, religion, national origin, age, disability, ancestry, sexual orientation or status as a disabled or Vietnam-era veteran. The University will not tolerate racial, ethnic or sexual discrimination. Sexual harassment is considered by law to be a form of sexual discrimination and is, therefore, unacceptable. Direct equal opportunity and affirmative action inquiries or complaints to the Special Assistant to the President for EEO/University Ombudsperson, Office of Social Equity, South Hall 112, 724-938-4014. Direct inquiries regarding services or facilities accessibility to the ADA/504, Dr Timothy Susick, Compliance Officer, Office of Student Development and Services, G 52 Carter Hall, 724-938-4056. Direct Title IX inquiries to the Senior Women's Administrator/Title IX Coordinator, Department of Athletics, Hamer Hall 248, 724-938-4351.
